Langum, 2016-09-15 This book considers how scientists theologians priests and poets approached the relationship of the human body and ethics in the later Middle Ages Is medicine merely a metaphor for sin Or can certain kinds of bodies physiologically dispose people to be angry sad or greedy If so then is it their fault Virginia Langum offers an account of the medical imagery used to describe feelings and actions in religious and literary contexts referencing a variety of behavioral discussions within medical contexts The study draws upon medical and theological writing for its philosophical basis and upon more popular works of religion as well as poetry to show how these themes were articulated explored and questioned more widely in medieval culture **SLOTH** D. David A. Salomon,2019-03-22 This volume looks at the history of the idea of sin as it has influenced and shaped Western culture Emphasis is placed on an inter and cross disciplinary approach The word sin has come to transcend the theological and enter the common parlance in both media and society This book is an examination of that idea It discusses how the concept of sin evolved through the Middle Ages and into the modern era From religion to politics and from the bedroom to the boardroom a more complete understanding of the history of sin will assist the modern reader in a wide variety of fields This book builds on the work of Gregory the Great to explain each of the so called seven deadly sins pride lust anger gluttony avarice envy and sloth Each chapter provides a close look at the origins and history of that individual sin concluding with a section on contemporary applications of the idea and a case study The central argument is that the concept of sin has been integral to the development of Western society including not only political and religious history but also in extensive aspects of popular culture in the twenty first century The broader but significant issue of intention versus action permeates the study

Gluttony : The Seven Deadly Sins Francine Prose,2003-09-11 In America notes acclaimed novelist Francine Prose we are obsessed with food and diet And what is this obsession with food except a struggle between sin and virtue overeating and self control a struggle with the fierce temptations of gluttony In Gluttony Francine Prose serves up a marvelous banquet of witty and engaging observations on this most delicious of deadly sins She traces how our notions of gluttony have evolved along with our ideas about salvation and damnation health and illness life and death Offering a lively smorgasbord that ranges from Augustine's Confessions and Chaucer's Pardoner's Tale to Petronius's Satyricon and Dante's Inferno she shows that gluttony was in medieval times a deeply spiritual matter but today we have transformed gluttony from a sin into an illness it is the horrors of cholesterol and the perils of red meat that we demonize Indeed the modern take on gluttony is that we overeat out of compulsion self destructiveness or to avoid intimacy and social contact But gluttony Prose reminds us is also an affirmation of pleasure and of passion She ends the book with a discussion of M F K Fisher's idiosyncratic defense of one of the great heroes of gluttony Diamond Jim Brady whose stomach was six times normal size The broad shiny face of the

glutton Prose writes has been and continues to be the mirror in which we see ourselves our hopes and fears our darkest dreams and deepest desires Never have we delved more deeply into this mirror than in this insightful and stimulating book

William DeJong,2019-11-11 This volume probes the nature of gratitude as a virtue and identifies its moral value in the Christian life in order to enhance pastoral effectiveness in ministering to those gripped by sins of desire Such impulses are explored in terms of the seven deadly sins which this inquiry regards as distorted desires for the good God provides Utilizing a method of mutual critical correlation this volume brings philosophical and psychological claims about gratitude into conversation with the Christian tradition On the basis of an ontology of communion in which humans are inextricably situated in giving and receiving relationships with God others and the world this inquiry defines gratitude as a social response involving asymmetrical agapic reciprocity whereby a recipient freely joyfully and fittingly salutes a giver for the gift received in order to establish maintain or restore a personal and peaceable relationship Critiquing especially the reductions of gratitude by Aristotle and Jacques Derrida this inquiry recommends gratitude as a virtue which when embodied practiced and ritualized especially though not exclusively in the Eucharist has potential to repel the destructive idolatries generated by the seven deadly sins and thus function as a crucial ingredient in human social flourishing Familiarity with the virtue of gratitude as a vital ingredient in moral flourishing therefore equips pastors for greater ministerial effectiveness
