Bowers,Frederique Apffel-Marglin,Fr,d,rique Apffel-Marglin,2004-12-13 This landmark collection of essays by Third World activists highlights two major world changes which they argue have been neglected by Freire and his many followers the Third World grass roots cultural resistance to economic globalization and the ecological crisis One source of the activist authors criticisms of Freire s pedagogy is rooted in their attempts to combine consciousness raising with literacy programs in such diverse cultural settings as Bolivia Peru India Southern Mexico and Cambodia where they discovered that Freire s pedagogy is based on western assumptions that undermine indigenous knowledge systems Equally important these authors make the case in various ways that a major limitation with Freire s ideas and which is reproduced in the writings of his followers is that he did not recognize the cultural implications of the world s ecological crisis Several essays in the collection focus directly on how the cultural assumptions Freire took for granted were also the assumptions that gave conceptual and moral legitimacy to the Industrial Revolution and continue to be the basis of the thinking behind economic globalization The essays also explain why cultural diversity is essential to the preservation of biological diversity and how intergenerational knowledge and patterns of mutual aid within different cultures provide alternatives to a consumer dependent lifestyle In his Afterword C A Bowers addresses the need to adopt a more ecological way of thinking one that recognizes the many ways the individual is nested in the interdependent networks of culture and how diverse cultures are nested in natural systems It also stresses that one of the tasks of educators is to help students recognize the patterns and relationships of everyday life and to assess them in terms of their contribution

to less consumer dependent relationships and activities As the essays in this volume affirm this involves facilitating students awareness of differences between cultures the impact of consumerism on ecosystems and the connections between hyper consumerism and environmental racism and the colonizing relationship of the South by the North Re Thinking Freire Globalization and the Environmental Crisis is a major contribution to this critical endeavor *Stalking Trophy Brown Trout* John Holt, 2012-07-17 The brown trout the most secretive most aggressive member of the trout family is an enigma among freshwater fish If you fish with a fly you already know that these creatures are objects of endless fascination After a lifetime fishing the West John Holt now catches more than a half dozen huge browns each year each weighing more than five pounds With detailed descriptions of his unusual techniques and with some surprising often counterintuitive revelations about what works and what doesn't this book passes along all the author's secrets Public Affairs Information Service Bulletin , 1980

The Illuminating Icon Anthony Ugolnik, 1989 This is a print on demand book and is therefore non returnable In Christ there is no East or West claims a familiar hymn But the truth is that American Christians know little about Russian Orthodox Christians and harbor many misconceptions about them In this revealing book Anthony Ugolnik shows how the thousand year old Russian Orthodox tradition actively shapes the life of contemporary Russian Christians and he points out how Russian Orthodoxy can inform and enrich American Christianity Ugolnik speaks from a unique perspective of Russian descent he is an American Christian who has a strong and genuine personal bond with Russian Christians Ugolnik begins his discussion by exploring the alienation between Russians and Americans a cultural and religious alienation that is still very strong today despite changing rhetoric and glasnost Americans tend to picture Russian Christians as cowed and ragged masses on the contrary says Ugolnik they are a stalwart strong community American Christians also tend to be suspicious about the role of icons in Russian Orthodox worship But Ugolnik points out that icons are not idols rather they are religious objects that image forth the majesty of God This powerful sense of the holy that pervades Russian Orthodoxy could reinvigorate American Christianity Indeed the Russian Orthodox have much to offer American Christians according to Ugolnik They place a much greater emphasis on community in their life and worship an emphasis that could help transform the individualistic faith of many American Christians Similarly the Orthodox emphasis on historical and spiritual continuity in contrast to the imagery of restoration and revival in Reformation Christianity could strengthen the worship and witness of American Christians And the Orthodox sense of the beautiful born of a complex aesthetics that undergirds Russian faith and culture could enrich the foundation as well as the expression of American Christianity In the end American and Russian Christians share the common dilemma of how to relate to the secular world around them and the Russian Orthodox emphasis on dialogue and engagement could vitalize the way American Christians live out their faith In this multifaceted book Ugolnik weaves personal experiences with richly developed explorations of Russian and American belief and incisive observations that draw on the literature philosophy theology and history of both cultures With both passion and compassion Ugolnik urges Russian and American
