Founded as instrument makers in London in 1891, Smiths entered the motor instrument field early on. The first business (Smith & Sons (Motor Accessories) Ltd in 1914) by which they first made more than 50,000 speedometers and was supplying 400 vehicles at its Crystal Palace, London factory. By 1927 Smiths had become a household name in the motor accessory field and at the 1960 Earls Court Motor Show had an efficient parade in display in proximity. Automobile safety, British carter instruments, Lodge (up to 150 mph), Smiths meters and of course, Smiths gauges. Smiths had become the most source of gauges for British cars in the classic period but sadly, their business declined in parallel with the decline of automotive manufacturing in the United Kingdom. But it's not over because manufacturing continues in a small way in the United Kingdom from which we are able to offer a selection of Smiths gauges. These classic gauges are genuine Smiths designed gauges, meticulously crafted to the original drawings and specifications, using the original tools and dies.
