reached a large audience and remain evocative Kundera also critically commented on creative works his own and of others thus contributing a unique approach to a specific aesthetic ideal and within the masterworks of world renowned authors Chapters on Kundera s aesthetics and form his philosophical leanings his relationship to the burgeoning concept of world literature and translations of his writings offer new perspectives on his life s work These insights shed light on Kundera s understudied works such as his early poetry and his recent French novels making connections between his early and later writing and cementing his literary legacy for English language audiences

Scripture and Theology Tomas Bokedal,Ludger Jansen,Michael Borowski,2023-08-21 The academic disciplines of Biblical Studies and Systematic Theology were long closely linked to one another However in the modern period they became gradually separated which led to increasing subject specialization but also to a lamentable lacuna within the various branches of Divinity As the lack of dialogue between Biblical Studies and the various theological disciplines increased a minority group of scholars in the past few decades reacted and sought to re establish the time honoured bonds between the disciplines The present volume is part of this intellectual response with contributions from scholars of various professional and denominational backgrounds Together the book s 25 chapters seek to reinvigorate the crucial cross disciplinary dialogue involving biblical narrative historical systematic theological and philosophic theological perspectives The book opens the horizon to contemporary research and fills a lamentable research gap with a number of fresh contributions from scholars in the respective sub disciplines

Worlds of Hungarian Writing András Kiséry,Zsolt Komáromy,Zsuzsanna Varga,2016-05-12 Worlds of Hungarian Writing responds to the rapidly growing interest in Hungarian authors throughout the English speaking world Addressing an international audience the essays in the collection highlight the intercultural contexts that have molded the conventions genres and institutions of Hungarian writing from the nineteenth century to the present They are mapping some of the ways in which a modern literature is produced by encounters with languages cultures and media external to its traditionally conceived boundaries But rather than viewing intercultural exchange as an external force the collection recognizes its enabling importance to the globalizing reception and circulation of Hungarian writing over the continuities and constraints implied by more traditional national narratives Worlds of Hungarian Writing posits intercultural exchange as the very substance of a literary culture Discussions of the politics of appropriation and translation of the impact of migr writers and critics and of the use of world literary models in genre formation complement studies of the fate of western leftist critical theory in post 1989 Hungary of the role of African American models in contemporary Roma culture and of the use of photography in late 20th century prose The volume spans a wide generic range from the achievements of such canonical 19th century critics and poets as J zsef Bajza and J nos Arany to neglected women authors translators such as Theresa Pulszky to

modernist writers and critics like Antal Szerb and György Lukács and to the contemporary novelists Péter Esterházy Péter Nádas and László Krasznahorkai Each essay is an original contribution to comparative literature and to the study of this Central European literature but is intended to be accessible to readers unfamiliar with its traditions The Knights of Modernism Branko Vraneš, 2021-06-07 According to the customary literary historical and theoretical notion the fact that the first modern novel represents a parody or travesty of the chivalric ideal merits no particular attention Failing to become attuned to the real role of the chivalric ideal at the beginning of the era of the modern novel commentators missed the chance to adequately review the role of chivalry at the end of that period The modern novel did not only begin but also ended with a travesty of the chivalric ideal The deep need of a significant number of modernist writers to measure their own time according to the ideals of the high and late Middle Ages cannot therefore be explained by a set of literary historical spiritual historical or social circumstances The predilection of a range of twentieth century novelists for a distant feudal past suggests that there exists a fundamental poetic connection between the modern or at least the modernist novel and the ideals of chivalry
