Nahid Rahimpour Anaraki, 2022-08-22 When they initiated a war on drugs in 1979 Iran developed a reputation as having some of the world's harshest drug penalties and as an opponent of efforts to reform global drug policy As mass incarceration failed to stem the growth of drug use Iran shifted its policies in 1990 to introduce treatment regimens that focus on rehabilitation While most Muslim countries and some Western states still do not espouse welfare oriented measures Iran has established several harm reduction centers nationwide through the welfare system for those who use substances In doing so Iran moved from labeling drug users as criminals to patients In *Life on Drugs in Iran* Anaraki moves beyond these labels to explore the lived experience of those who use and have used illicit substances and the challenges they face as a result of the state's shifting policies Gaining remarkable access to a community that has largely been ignored by researchers Anaraki chronicles the lives of current and former substance users in prisons treatment centers and NGOs In each setting individuals are criminalized medicalized and marginalized as the system attempts to normalize them without addressing the root cause of the problem Drawing upon first hand accounts Anaraki's groundbreaking study takes an essential step in humanizing people with substance abuse issues in Iran Drugs and Crime Serge Brochu, Natacha Brunelle, Chantal Plourde, 2018-03-13

Forensic Psychiatry and Prison Mental Health in South Asia Arpit Parmar, Sujita Kumar Kar, S. M. Yasir

Arafat, 2025-07-29 Forensic psychiatry is an emerging branch of psychiatry in South Asian countries. The countries of the region have just started to concentrate on its importance. Very little is known about the extent of problems and available mental health services. The volume editors have not found a comprehensive book compiling the scenario from these eight countries. Therefore, this book will be the first of its kind. It will be helpful for clinical psychiatrists, psychiatric trainees, academics, researchers, legal practitioners, policymakers, and NGO personnel working with law enforcement and mental health. The book aims to provide a comprehensive evaluation of forensic psychiatry and related issues in South Asian countries. It will cover varied areas in this field such as mental health and addiction laws, capacity assessment, insanity defense, criminal responsibility, and prison mental health issues. The book will discuss these topics thoroughly, keeping in mind regional differences such as different mental health legislatures and cultural variations. *Carceral Recovery* Sanaullah

Khan, 2023-10-03 The book explores the interrelation between carceral conditions and substance use by considering the intersections between drug markets, sidewalks, households, and prisons in Baltimore. Sanaullah Khan argues that while housing, medicalization, and incarceration fundamentally create the conditions for substance use, individuals are increasingly experiencing the paradoxes of care and punishment by being propelled into a new regime of recovery which creates new pharmaceuticalized identities. By shedding light on how addiction and the impetus for healing moves through families and institutions of the state, Khan provides an account of the different competing forces that shape substance use, recovery, and relapse. Through a combination of archival research and ethnography, the book makes a case for disentangling punishment from recovery. *Penitentiary Policy and System in the Republic of Bulgaria* Marija Jordanova, Dimităr Markov, 2011

Terrorism Against America Rodney Stich, 2008-09 Stich details the various forms of aviation and other terrorist acts against the United States, including the overt and covert actions by people in government. *The SAGE Handbook of Digital Society* William Housley, Adam Edwards, Roser Beneito-Montagut, Richard Fitzgerald, 2022-11-23 This SAGE Handbook brings together cutting edge social scientific research and theoretical insight into the emerging contours of digital society. Chapters explore the relationship between digitisation, social organisation, and social transformation at both the macro and micro level, making this a valuable resource for postgraduate students and academics conducting research across the social sciences. The topics covered are impressively far ranging and timely, including machine learning, social media surveillance, misinformation, digital labour, and beyond. This innovative Handbook perfectly captures the state of the art of a field which is rapidly gaining cross disciplinary interest and global importance, and establishes a thematic framework for future teaching and research. Part 1 Theorising Digital Societies, Part 2 Researching Digital Societies, Part 3 Sociotechnical Systems and Disruptive Technologies in Action, Part 4 Digital Society and New Social Dilemmas, Part 5 Governance and Regulation, Part 6 Digital Futures. **A Priest Behind Bars** Marcelo Blázquez Rodrigo, 2009-06 A Priest Behind Bars is an intriguing autobiographical

novel by Fr Marcelo Bl zquez Rodrigo a Spanish Roman Catholic priest who spent over a quarter of a century in the United States as a prison chaplain and counselor on the inside He worked in some of the harshest maximum security New York State correctional facilities including Cossackie and Comstock Bl zquez brings the fascinating stories of New York inmates into the light Each chapter tells the story of a different prisoner from a Vietnam vet drug addict with AIDS to a convicted rapist who nearly dies as a result of a self imposed hunger strike in defense of his religious convictions This book openly criticizes the New York penal system and offers exclusive insight into its inner workings from the perspective of a first hand witness of the atrocities of prison life

Thailand, Not Enough Graves Human Rights Watch (Organization), 2004 [Prisons, Punishment, and the Family](#) Rachel Condry, Peter Scharff Smith, 2018-11-10 Every year millions of families are affected by the imprisonment of a family member Children of imprisoned parents alone can be counted in millions in the USA and in Europe It is a bewildering fact that while we have had prisons for centuries and the deprivation of liberty has been a central pillar in the Western mode of punishment since the early nineteenth century we have only relatively recently embarked upon a serious discussion of the severe effects of imprisonment for the families and relatives of offenders and the implications this has for society This book draws together some of the excellent research that addresses the impact of criminal justice and incarceration in particular upon the families of offenders It assembles examples of recent and ongoing studies from eight different countries in order to not only learn about the secondary effects and collateral consequences of imprisonment but also to understand what the experiences and lived realities of prisoners families means for the sociology of punishment and our broader understanding of criminal justice systems While punishment and society scholarship has gained significant ground in recent years it has often remained silent on the ways in which the families of prisoners are affected by our practices of punishment This book provides evidence of the importance of including families within this scholarship and explores themes of legitimacy citizenship human rights marginalization exclusion and inequality
