Time S Potential Power Petitions 128:

Hard Times Barbara Kellerman, 2014-10-15 A highly perceptive analysis of the crisis of leadership in 21st century America written in an exhilaratingly readable style Archie Brown Oxford University author of *The Myth of the Strong Leader* Selected by Choice as an Outstanding Academic Book Leadership has never played a more prominent role in America's national discourse and yet our opinions of leaders are at all time lows Private sector leaders are widely seen as greedy to the point of being corrupt Public sector leaders are viewed as incompetent to the point of being inept And levels of trust in government have plummeted As the title of this book conveys leaders in America are experiencing hard times Barbara Kellerman argues that we focus on leaders and even on followers while ignoring an essential element of leadership context This book is a corrective It enables leaders to track the terrain that they must navigate in order to create change Rather than a handy dandy manual on what to do and how to do it *Hard Times* is structured as a checklist Twenty four brief sections cover key aspects of the American landscape They trace evolutions and revolutions that have revised our norms transformed our populations and institutions and shifted our culture Kellerman's crash course on context reveals how significant it is to leadership Clearer still is the fact that leadership is more difficult than it has ever been It is context that explains why leadership is so fraught with frustration And it is context that makes evident why leadership will be better exercised if it is better understood Calling out patterns that emerge from the checklist Kellerman challenges leaders to do better This fascinating read will change the way that all of us think about leadership while compelling us to consider what it means for our future Finally a book that explains why leadership is so hard thought provoking examples taken from business and government alike Sydney Finkelstein Tuck School of Business author of *Why Smart Executives Fail* *Federal Register*, 2013-09 **Electrical Times**, 1970 **Journal of the Senate of the United States of America** United States. Committee on Rules and Administration, 1968 **The Decline Effect** Dean Brooks, 2023-01-23 A crisis is coming for everyone who uses math and science For decades now the classical model of probability the indifference principle and the Gaussian distribution has been breaking down and revealing its limitations in fields from economics to epidemiology Now a new approach has revealed the underlying non classical principle behind all these anomalous laws Pareto's law of elite incomes Zipf's law of word frequencies Lotka's law of scientific publications Kleiber's law of metabolic rates the Clausewitz Dupuy law of combat friction Moore's law of computing costs the Wright Henderson cost law Weibull's law of electronics

failures the Flynn Effect in IQ scores Benford's law of digit frequencies Farr's law of epidemics Hubbell's neutral theory of biodiversity Rogers law of innovation classes Wilson's law of island biogeography Smeed's law of traffic fatalities The general law behind all these particular laws and countless others is the decline effect As a system ages or grows in size the rules of probability subtly change Entropy increases rare items become rarer and average performance measures decline The human meaning of a decline may be positive decreasing costs falling epidemic mortality or negative lower customer loyalty decreasing efficiency but the mathematical pattern is always the same The implications are enormous as these examples show All epidemic diseases decline in infectiousness and in lethality HIV AIDS went from a highly infectious 95 percent fatal disease to a survivable condition with a latency of decades COVID 19 went from a death rate of 7 percent in early 2020 to under 2 percent in 2022 Hereditary dynasties around the world declined smoothly in lifespan from hundreds of years to tens of years When democracies replaced monarchies the decline in spans of party control continued **Psalms 51-100,**
