Zero Decibels George Michelsen Foy, 2010-05-18 Have our noise soaked lives driven us mad And is absolute silence an impossible goal or the one thing that can save us A lively tale of one man's quest to find the grail of total quiet I don't know at what point noise became intolerable for me George Michelsen Foy writes as he recalls standing on a subway platform in Manhattan hands clamped firmly over his ears face contorted in pain But only then does Foy realize how overwhelmed he is by the city's noise and vow to seek out absolute silence if such an absence of sound can be discovered Foy begins his quest by carrying a pocket sized decibel meter to measure sound levels in the areas he frequents most the subway the local caf different rooms of his apartment as well as the places he visits that inform his search including the Parisian catacombs Joseph Pulitzer's silent vault the snowy expanses of the Berkshires and a giant nickel mine in Canada where he travels more than a mile underground to escape all human made sound Along the way Foy experiments with noise canceling headphones floatation tanks and silent meditation before he finally tackles a Minnesota laboratory's anechoic chamber that the Guinness Book of World Records calls the quietest place on earth and where no one has ever endured even forty five minutes alone in its pitch black interior before finding the silence intolerable Drawing on history science journalistic reportage philosophy religion and personal memory as well as conversations with experts in various fields whom he meets during his odyssey Foy finds answers to his questions How does one define silence Did human beings ever experience silence in their early history What is the relationship between noise and space What are the implications of silence and our need for it physically mentally emotionally politically Does absolute silence actually exist If so do we really want to hear it And if we do hear it what does it mean to us According to the Environmental Protection Agency 30 million Americans suffer from environment related deafness in today's digital age of pervasive sound and sensory overload Roughly the same number suffer from tinnitus a condition also environmentally related that makes silence impossible in even the quietest places In this respect Foy's quest for silence represents more than a simple psychological inquiry both his queries and his findings help to answer the question How can we live saner healthier lives today Innovative perceptive and delightfully written *Zero Decibels* will surely change how we perceive and appreciate the soundscape of our lives

Quest for the Enlightened Feminine Anna Howard, 2024-11-26 Describes how the author gave up her life of comfort to move to the first Tibetan Buddhist monastery in

the West Kagyu Samye Ling Details her 18 month pilgrimage around the world inspired by the compassion and wisdom of the female Buddha Green Tara and her entourage of 21 emanations Woven throughout with Tibetan Buddhist teachings and methods including practices with Green Tara and White Tara Can traditional spiritual practices bring about radical change for a happier existence in modern life A life changing dream encounter with Jesus the Christ propels former broadcaster and healer Anna Howard on a profound journey of spiritual awakening From her roots in mystical Christianity her quest leads her to discover Vajrayana Buddhism in the first Tibetan Buddhist monastery in the West Kagyu Samye Ling in Scotland Awakening to the feminine face of God Anna immerses herself in the compassion practices of the female Buddha Green Tara and her 21 emanations Deeply inspired her inner work finds its outer expression in an 18 month global pilgrimage from Holy Island Lindisfarne to South Africa As she and her friends distribute 21 small Tara statues blessed by Akong Tulku Rinpoche Anna too finds transformation Touching the deep core of human longing Quest for the Enlightened Feminine is a story of faith courage and determination Illustrating a path to freedom and happiness Anna Howard shows how the divine feminine can awaken our enlightened potential Interwoven with Tibetan Buddhist teachings and methods including practices with Green Tara and White Tara Tonglen meditation and exercises for working with the 21 Taras this book reveals how to put these sacred teachings into practice in your own life The Infinite Mindfield Anthony Peake, 2013-10-03 Using information from the cutting edge of modern science Peake presents startling evidence that the inner worlds of our mystics and shamans are as real or possibly even more real than the reality we experience in waking life As his starting point Peake examines the widespread historical belief that the mid brain s pine cone shaped pineal gland activates the third eye described by mystics and seers Through careful analysis of ancient religious texts and artifacts he gives evidence that the spiritual properties of the pineal gland have been embedded in myths and cultures across the globe Why else would the Buddha so often be found wearing a pine cone hat Peake then shows that it is through this small organ that we experience lucid dreaming out of body experiences hypnagogic imagery near death experiences astral travel and the kundalini experience The book ends with the mind blowing conclusion that all living beings are one unitary consciousness experiencing itself subjectively *Sounds Senses* yasser elhariry, 2021-11-10 *Sounds Senses* is about what happens to the francophone postcolonial condition when sound is taken as a point of departure for engaging cultural production Offering a synthetic overview of sound studies it dismantles the retinal paradigms and oculo-centrism of francophone postcolonial studies By shifting the sensory hermeneutics of perception from the visual the textual and the graphemic to the sonic the auditory and the phonemic the book places cultural production that privileges or otherwise exaggerates stheticized sensorial experiences at the forefront of francophone postcolonialism In the process it introduces two primary theoretical thrusts the unheard and the unintegrated to the project of analyzing extending and rejuvenating francophone postcolonial studies The book reevaluates francophone culture in relation to sound and the experience of sound situating it along the fluid axes of paralingual utterance audio vision voice and

narrative speakers Through a range of case studies focusing on parafrancophonics poetry world music cinema the graphic novel popular speech phenomenon and the poetics and politics of transcolonial identification *Sounds Senses* demonstrates how francophone postcolonial culture is satiated with a glut of unexplored sonic significance **S.T.O.P.
