Adolescents need a school that is not a school This claim by Maria Montessori dating from the 1930s is increasingly shared today Consistently based on the developmental needs in adolescence Maria Montessori designed the concept of a Center for Study and Work in the Countryside for students aged 12-18 years which gives young people the opportunity to learn about the basic structures of production trade and services in a manageable transparent and at the same time protected setting through Practice Theory linked experiences The book presents the basics of Maria Montessori's concept and gives through reports with practitioners and interviews with Montessori experts insights into authentic implementations of the Farm school concept and thus into a learning arrangement that allows young people a high degree of responsibility and participation and strengthens their commitment to a sustainable approach to natural resources and a peaceful way of living The book also addresses schools without a Farm school practice and shows ways of approaching crucial components of this authentic and highly topical concept

Maria Montessori: Her Thoughts and Her Beliefs for Today Vickie Jacob, 2024-11-26 Maria Montessori along with many other enlightened thinkers of our time foresaw nothing less than the emergence of a new human culture In Maria Montessori's time hers was a futurist vision She puts forth her vision in her books such as *The Formation of Man To Educate the Human Potential* and *Education for a New World* Once we understand what is happening to education in the public schools we begin to wonder if this endless nightmare will have some light shed later on down the road not in just knowing about the Montessori schools but the bigger problem of the system that has been implemented today When the government attempts to impose a set of values it will always countermand some parents' authority and often ignites a school war America was founded and built on God's principles and over a hundred fifty years experience shows that we cannot have a society that is both free and peaceful when legislators use schools to shape attitudes or control the content of students' minds These wars are over whose values are being taught We're seeing a system that has too many cracks in it to be fixed Is God speaking to America Perhaps because our watchmen have gone to sleep About the Author A mother of three children and four grandchildren Vickie Jacobs is retired and spends much of her time with gardening ducks chickens and many dogs Raising children brought her into contact with educators and seeing a lot of changes since her own school days Vickie is very grateful to her husband and family who encouraged her with this work
