Emer O'Sullivan, 2023-04-24 History is constantly evolving and the history of children's literature is no exception. Since the original publication of Emer O'Sullivan's *Historical Dictionary of Children's Literature* in 2010, much has happened in the field of children's literature. New authors have come into print, new books have won awards, and new ideas have entered the discourse within children's literature studies. *Historical Dictionary of Children's Literature* Second Edition contains a chronology, an introduction, and an extensive bibliography. The dictionary section has more than 700 cross-referenced entries. This book will be an excellent resource for students, scholars, researchers, and anyone interested in the field of children's literature studies.

American Literature Before 1880 Robert Lawson-Peebles, 2003-11-13 *American Literature Before 1880* attempts to place its subject in the broadest possible international perspective. It begins with Homer looking westward and ends with Henry James crossing the Atlantic eastward. In between, the book examines the projection of images of the East onto an as yet unrecognised West, the cultural consequences of Viking, Colombian, and then English migration to America, the growth and independence of the British American colonies, the key writers of the new Republic, and the development of the culture of the United States before and after the Civil War. It is intended both as an introduction for undergraduates to the richness and variety of American Literature and as a contribution to the debate about its distinctive nature. The book therefore begins with a lengthy survey of earlier histories of American Literature.

The Routledge Concise History of Canadian Literature Richard J. Lane, 2012-04-27 *The Routledge Concise History of Canadian Literature* introduces the fiction, poetry, and drama of Canada in its historical, political, and cultural contexts. In this clear and structured volume, Richard Lane outlines the history of Canadian literature from colonial times to the present, key texts for Canadian First Peoples, and the literature of Quebec, the impact of English translation, and the Canadian immigrant experience. Critical themes such as landscape, ethnicity, orality, textuality, war, and nationhood, contemporary debate on the canon, feminism, postcoloniality, queer theory, and cultural and ethnic diversity are explored. The work of canonical and lesser-known writers from Catherine Parr Traill and Susanna Moodie to Robert Service, Maria Campbell, and Douglas Coupland is discussed. Written in an engaging and accessible style and offering a glossary, maps, and further reading sections, this guidebook is a crucial resource for students working in the field of Canadian Literature.
