Challenging Cases and Complication Management in Pain Medicine Magdalena Anitescu, Honorio T. Benzon, Mark S. Wallace, 2017-11-17 This comprehensive book provides reviews of pain management complications that arise in clinical practice. Organized into sections focused on types of pain therapy and procedures, each chapter is based on actual complications starting with a case description that delineates the context with a short past medical and surgical history, pain management technique and outcome. It is followed by a comprehensive review of the topic described in the first section. Authors emphasize the elements of differential diagnosis that pointed towards establishing of the complication and describe the best way to treat the identified complication. Physicians treating pain patients will be presented the necessary tools in identifying and treating unanticipated complications following pain interventions thus providing safer care for their patients.

Toxicological Survey of African Medicinal Plants Victor Kuete, 2014-05-30 Toxicological Survey of African Medicinal Plants provides a detailed overview of toxicological studies relating to traditionally used medicinal plants in Africa with special emphasis on the methodologies and tools used for data collection and interpretation. The book considers the physical parameters of these plants and their effect upon various areas of the body and human health including chapters dedicated to genotoxicity, hepatotoxicity, nephrotoxicity, cardiotoxicity, neurotoxicity and specific organs and systems. Following this discussion of the effects of medicinal plants is a critical review of the guidelines and methods in use for toxicological research as well as the state of toxicology studies in Africa. With up to date research provided by a team of experts, Toxicological Survey of African Medicinal Plants is an invaluable resource for researchers and students involved in pharmacology, toxicology, phytochemistry, medicine, pharmacognosy and pharmaceutical biology. Offers a critical review of the methods used in toxicological survey of medicinal plants. Provides up to date toxicological data on African medicinal plants and families. Serves as a resource tool for students and scientists in the various areas of toxicology.
