snow house where they should spend a winter The travellers winter on the island and survive mainly due to the ingenuity of Doctor Clawbonny who is able to make fire with an ice lens make bullets from frozen mercury and repel attacks by polar bears with remotely controlled explosions of black powder When the winter ends the sea becomes ice free The travellers build a boat from the shipwreck and head towards the pole Here they discover an island an active volcano and name it after Hatteras With difficulty a fjord is found and the group get ashore After three hours climbing they reach the mouth of the volcano The exact location of the pole is in the crater and Hatteras jumps into it As the sequence was originally written Hatteras perishes in the crater Verne s editor Jules Hetzel suggested or rather required that Verne do a rewrite so that Hatteras survives but is driven insane by the intensity of the experience and after return to England he is put into an asylum for the insane Losing his soul in the cavern of the North Pole Hatteras never speaks another word He spends the remainder of his days walking the streets surrounding the asylum with his faithful dog Duke While mute and deaf to the world Hatteras walks are not without a direction As indicated by the last line Captain Hatteras forever marches northward wikipedia org

The Adventures of Captain Hatteras Jules Verne,2024-09-12T17:08:36Z A letter from a sea captain signed only with cryptic initials directs an experienced sailor to built and outfit a ship and to assemble a crew to sail on a dangerous adventure The voyage starts towards a northerly destination with as far as anyone knows no captain aboard After some time at sea the captain finally appears and announces his identity and his plan to sail to the North Pole The crew faces dangers and hardship as they fight their way through the icy seas while the captain single mindedly drives them to find a passage ever farther north In his usual style Verne includes lots of history and scientific explanations in the story The Adventures of Captain Hatteras was first published in 1864 under the title Voyages et aventures du capitaine Hatteras The polar regions were not completely explored at this time Verne speculated that the North Pole would be reachable by sea and with the story set in 1861 it would be almost another fifty years before an explorer reached the pole This book is part of the Standard Ebooks project which produces free public domain ebooks **The Adventures of Captain Hatteras** Jules
