Investment case for tobacco control in Vanuatu United Nations Development Programme, World Health Organization, 2024-06-20 A key support for FCTC 2030 project countries is the development of a WHO FCTC investment case. These investment cases analyze the health and economic costs of tobacco use as well as the potential economic benefits that can come from implementing key WHO FCTC measures. Focusing on the economic rationale for tobacco control, the WHO FCTC investment cases provide policymakers and other stakeholders with country level evidence to inform tobacco control policy making. The investment case for Vanuatu was prepared under the FCTC 2030 project in close collaboration with governments of FCTC 2030 project countries, the Convention Secretariat, UNDP and WHO.

Demand-Driven Supply Chain Management Simon Eagle, 2017-04-03 Many manufacturing and distribution companies are moving from the traditional forecast push MRP to demand driven supply chain management. SCM Demand driven SCM is an end to end supply chain planning and replenishment process that enables companies to achieve their planned service levels from up to half the average level of inventory and requiring significantly less throughput capacity irrespective of the level of demand volatility or lead time length. Demand Driven Supply Chain Management is the go to source for industry supply chain operations executives and students. It describes the what how and why of the demand driven SCM process. The key themes in the book are what is demand driven why is demand driven so effective how to operate a demand driven supply chain and how to adopt the demand driven process in your company. Readers can quickly grasp the essential concepts from one of numerous self contained sections that present the book's key concepts from different perspectives.
