Predation ID Manual Kurt Alt, Matthew Eckert, 2017-10-17 Part of the challenges and rewards of being a field biologist is being able to recreate a predation event. But that experience is often difficult and frustrating as time, weather, and other factors can make clues sparse. Even the most careful of investigators can spend hours of time second-guessing themselves while exhausting every possibility from inconclusive evidence. The Predation ID Manual is designed to help assuage some of those difficulties by providing the reader with practical expert advice including a step-by-step approach for gathering evidence, suggestions of what to focus on at a carcass site, a template of terminology to use when classifying a predation, a guide for investigating and determining signs of hemorrhage, signs of kill and kill sites by species including deer, elk, and lynx, and dozens more tips. With a waterproof cover and sturdy pages, the SCIF's Predation ID Manual is a must-have for every serious hunter and field biologist.
