**Was There a Fifth Man?** Wilfrid Basil Mann, 2014-05-20 Was There a Fifth Man Quintessential Recollections presents the author's personal account of his professional life as an experimental physicist in the service at different times of each of the three countries that joined forces at the Quebec Conference in 1943 to produce the atom bomb The author has been identified though always in a way which was just short of actionable with the so called Fifth Man of the long running British spy saga For his sake and that of his family he felt duty bound to set the record straight before myth had time to trespass on history Making extensive use of dated correspondence and publications he shows precisely where he was at the times that an individual called Basil was supposed to have been operating in collusion with Donald Maclean at the British Embassy in Washington He claims that the misfit between Basil and himself is epitomized by the fact that when Basil was supposed to be entering the scene in Washington for an extensive sojourn the author was actually leaving Washington for the United Kingdom *Air-Launched Doodlebugs* Peter C. Smith, 2007-04-13 The V 1 or Doodlebug or Flying bomb came into use in June 1944 and together with the V 2 Rocket was Hitler's final hope in face of the advancing Allied forces sweeping across Europe towards Germany Of the 8 000 that were launched within the first 80 days some 2 300 reached the London area where they caused more death and destruction to its population and buildings As the front line moved eastwards many of the ground based launch ramps became denied to the German forces and the modest range of the missile meant that other means of launching must be considered to continue the threat An air launching system utilizing the Luftwaffe's Heinkel 111 bomber was developed and operated by the newly formed Kampfgeschwader units This posed a dramatic new threat to the UK because the V 1's effective range was considerably increased and its mobile firing point offered a much greater target area when fired from an aircraft flying over the North Sea This is the story of the development and operation of this new form of attack and also of the Allied reaction and defense measures taken to minimize damage *Popular Mechanics*, 1975-05 *Popular Mechanics* inspires instructs and influences readers to help them master the modern world Whether it's practical DIY home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science PM is the ultimate guide to our high tech lifestyle *The Naval Miscellany* Susan Rose, 2020-11-26 This seventh volume of *Naval Miscellany* contains documents which range in date from the late thirteenth century to the Korean War They illustrate the many different ways in which the naval forces of the crown have served the realm Topics covered include the role of ships in campaigns against Scotland under Edward I and Edward VI the protection of the Iceland fishery in the days of the Commonwealth government and the operation of prize courts during the wars against France in the eighteenth century Moving on to the nineteenth century the supply of timber to the Royal Navy is examined while two contributions deal with surveying off the west coast of Africa and another prints a diary kept by a member of the Naval Brigade operating onshore in the Zulu War The most recent contributions deal with the origins and development of the Royal

Australian Navy up to the 1950s Two more controversial subjects are also included the first gives more information about the storage of cordite on battle cruisers in 1916 and the battle of Jutland the second documents the relief of Admiral North from Gibraltar in 1940 There is something here for every enthusiast for naval history and for all students of the relevant periods
