examines the extent to which Zen leaders have reflected on their wartime political stances and started to construct a critical Zen social ethic Finally he considers the resources Zen might offer its contemporary leaders as they pursue what they themselves have identified as a pressing task ensuring that henceforth Zen will avoid becoming embroiled in international adventurism and instead dedicate itself to the promotion of peace and human rights Lucid and balanced in its methodology and well grounded in textual analysis Imperial Way Zen will attract scholars students and others interested in Buddhism ethics Zen practice and the cooptation of religion in the service of violence and imperialism
