A Business History of Soy Midori Hiraga,2024-11-11 This is a business history of soy that reveals how Japanese imperial and military institutions and financial mercantile industrial interests created a role for soy as a versatile raw material and global commodity beginning in the 19th century even before the Western world recognized this oilseed Originating in the rich food cultures of Asia soy is praised as the magic bean About 360 million tons are produced in the world today and it is traded globally to become food feed and fuel It is the second largest source of vegetable oil in the world and soy meal is an essential feed without which the modern livestock industries could not exist Its dominance today is often

accounted for in terms of its versatile nature This book however argues that soy was transformed into a versatile industrial raw material and global commodity through the political economic strategies of state and business actors engaged in the development of the capitalist world economy By studying little known Japanese historical documents and corporate records and focusing on the less researched vegetable oil and industrial uses of soy this book provides a better understanding of how this traditional Asian food was transformed into a global commodity embedded in contradictions Promoted as a healthy and sustainable food source soy is also a destructive cash crop whose cultivation and use have played a significant role in the current climate crisis Based on this case of soy the book provides a structural understanding of broader food and agriculture systems in the history of capitalism making it of interest to students at an advanced level academics and researchers in the fields of business history corporate governance Japanese business as well as the political economy of food and agriculture Chapters 2 3 and the Conclusion of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license
