Masonic records, 1717-1894 John Lane (freemason.),1895 **Land of Progress** Jacob Norris,2013-04-11 Histories of Palestine in the pre 1948 period usually assume the emergent Arab Zionist conflict to be the central axis around which all change revolves In Land of Progress Jacob Norris suggests an alternative historical vocabulary is needed to broaden our understanding of the region s recent past In particular for the architects of empire and their agents on the ground Palestine was conceived primarily within a developmental discourse that pervaded colonial practice from the turn of the twentieth century onwards A far cry from the post World War II focus on raising living standards colonial development in the early twentieth century was more interested in infrastructure and the exploitation of natural resources Land of Progress charts this process at work across both the Ottoman and British periods in Palestine focusing on two of the most salient but understudied sites of development anywhere in the colonial world the Dead Sea and Haifa Weaving the experiences of local individuals into a wider narrative of imperial expansion and anti colonial resistance Norris demonstrates the widespread excitement Palestine generated among those who saw themselves at the vanguard of progress and modernisation whether they were Ottoman or British Arab or Jewish Against this backdrop Norris traces the gradual erosion during the mandate period of the mixed style of development that had prevailed under the Ottoman Empire as the new British regime viewed Zionism as the sole motor of modernisation As a result the book s latter stages relate the extent to which colonial development became a central issue of contestation in the struggle for Palestine that unfolded in the 1930s and 40s

raising chickens in southern New Jersey than anywhere else Speaking Yiddish to Chickens is the first book to chronicle this little known chapter in American Jewish history when these mostly Eastern European refugees including the author s grandparents found an unlikely refuge and gateway to new lives in the US on poultry farms They gravitated to a section of south Jersey anchored by Vineland a small rural city where previous waves of Jewish immigrants had built a rich network of cultural and religious institutions This book relies on interviews with dozens of these refugee farmers and their children as well as oral histories and archival records to tell how they learned to farm while coping with unimaginable grief They built small synagogues within walking distance of their farms and hosted Yiddish cultural events more frequently found on the Lower East Side than perhaps anywhere else in rural America at the time Like refugees today they embraced their new American identities and enriched the community where they settled working hard in unfamiliar jobs for often meager returns Within a decade falling egg prices and the rise of industrial scale agriculture in the South would drive almost all of these novice poultry farmers out of business many into bankruptcy Some hated every minute here others would remember their time on south Jersey farms as their best years in America They enjoyed a quieter way of life and more space for themselves and their children than in the crowded New York City apartments where so many displaced persons settled This is their remarkable story of loss renewal and perseverance in the most unexpected of settings Author Facebook page https www facebook com YiddishtoChickens   **Proceedings of the Royal Colonial Institute** Royal Commonwealth Society,1902
