United States Of Tara Tv Guide:

The Sitcom Reader, Second Edition Mary M. Dalton, Laura R. Linder, 2016-05-12 This updated and expanded anthology offers an engaging overview of one of the oldest and most ubiquitous forms of television programming the sitcom Through an analysis of formulaic conventions the contributors address critical identities such as race gender and sexuality and overarching structures such as class and family Organized by decade chapters explore postwar domestic ideology and working class masculinity in the 1950s the competing messages of power and subordination in 1960s magicoms liberated women and gender in 1970s workplace comedies and 1980s domestic comedies liberal feminism in the 1990s heteronormative narrative strategies in the 2000s and unmasking myths of gender in the 2010s From I Love Lucy and The Honeymooners to Roseanne Cybill and Will Grace to Transparent and many others in between The Sitcom Reader provides a comprehensive examination of this popular genre that will help readers think about the shows and themselves in new contexts For access to an online resource created by Mary Dalton which includes interviews with contributors and course lectures visit The Sitcom Reader A Companion Website <https://build.zsr.wfu.edu/sitcomreader> Time in Television Narrative Melissa Ames, 2012-08 This collection analyzes twenty first century American television programs that rely upon temporal and narrative experimentation These shows play with time slowing it down to unfold the narrative through time retardation and compression They disrupt the chronological flow of time itself using flashbacks and insisting that viewers be able to situate themselves in both the present and the past narrative threads Although temporal play has existed on the small screen prior to the new millennium never before has narrative time been so freely adapted in mainstream television The essayists offer explanations for not only the frequency of time play in contemporary programming but the implications of its sometimes disorienting presence Drawing upon the fields of cultural studies television scholarship and literary studies as well as overarching theories concerning postmodernity and narratology Time in Television Narrative offers some critical suggestions The increasing number of television programs concerned with time may stem from any and all of the following recent scientific approaches to quantum physics and temporality new conceptions of history and posthistory or trends in late capitalistic production and consumption in the new culture of instantaneity or in the recent trauma culture amplified after the September 11 attacks In short these televisual time experiments may very well be an aesthetic response to the climate from which they derive These essays analyze both ends of this continuum and also attend to another crucial variable the television viewer watching this new temporal play TV Guide ,2007 **The Odd Couple on Stage and Screen** Bob Leszczak, 2014-08-20 Inspired by the real life post divorce experiences of television comedy writer Danny Simon The Odd Couple has touched multiple generations of fans Playwright Neil Simon embellished his brother Danny's pseudo sitcom situation and created an oil and water twosome with memorable characters showcasing the foibles of mankind The original Broadway production enjoyed a run of 964 performances The story of the cohabitation of Felix Ungar and Oscar Madison

translated extremely well to the silver screen and then in 1970 to television where it brought weekly laughs and mirth to an even larger audience for five seasons in prime time This thorough history details The Odd Couple in all its forms over the decades It provides capsule biographies of the stage film and television casts and crew as well as an episode guide and a wealth of little known information The Rainbow Age of Television Shayna Maci Warner,2024-08-27 The ultimate deep dive into the revolution of queer TV With the last decade s television boom across a multitude of platforms producing hundreds of network and streaming series American audiences are being treated to a cascade of shows that some have trumpeted as a second Golden Age But something completely new is stirring too the Rainbow Age For the first time in the history of American television we have shows in which LGBTQIA characters have evolved from being an anomaly to being an almost given and celebrated presence on the small screen But what more can queer TV do Is each new queer character really breaking ground And has the curse of the fictional dead lesbian finally been defeated The Rainbow Age of Television tackles these questions and more as author Shayna Maci Warner tracks the history and evolution of LGBTQIA icons across the televised ages and into the future of streaming from the very first televised queer kiss we think to the shows that are making household names and heroes of queer characters today Warner uses original interviews with queer TV icons such as Lilly Wachowski and Stephanie Beatriz along with detailed history to investigate the constraints under which queer people have been allowed to exist on American television Surveying seventy plus years of broadcasts The Rainbow Age of Television explores why queer people are so invested in and conflicted by the kinds of storytelling that TV has to offer Above all it s a celebration of the LGBTQIA shows their characters and their creators that define this new age in television **The Top 100 American Situation Comedies** Mitchell E. Shapiro,Tom Jicha,2015-10-30 A number of books and articles have been written ranking the best situation comedies of all time These have all had something in common subjective criteria based on the authors opinions This book attempts an objective ranking of the best 100 American sitcoms based on a mathematical formula taking into account four factors ratings longevity peer acceptance and spawning of other programs spin offs The authors considered a field of 377 series which met at least one of four criteria aired for at least three seasons rated among top 30 series in at least one season received at least one major Emmy nomination or spawned at least one other series A critical essay is provided for each series along with air dates and cast listings **Washed in Blood** Claire Sisco King,2011-11-25 Will Smith in I Am Legend Leonardo DiCaprio in Titanic Charlton Heston in just about everything Viewers of Hollywood action films are no doubt familiar with the sacrificial victim hero the male protagonist who nobly gives up his life so that others may be saved Washed in Blood argues that such sacrificial films are especially prominent in eras when the nation and American manhood is thought to be in crisis The sacrificial victim hero continually imperiled and frequently exhibiting classic symptoms of post traumatic stress disorder thus bears the trauma of the nation Claire Sisco King offers an in depth study of three prominent cycles of Hollywood films that follow the sacrificial narrative the early to mid 1970s the mid to late 1990s
