McLaughlin,Anna T. Pinedo**

Universit Of Limpopo Undergraduate Prospectus 2015:

The Cambridge Handbook of Consumer Privacy Evan Selinger, Jules Polonetsky, Omer Tene, 2018-04-02 Businesses are rushing to collect personal data to fuel surging demand Data enthusiasts claim personal information that is obtained from the commercial internet including mobile platforms social networks cloud computing and connected devices will unlock path breaking innovation including advanced data security By contrast regulators and activists contend that corporate data practices too often disempower consumers by creating privacy harms and related problems As the Internet of Things matures and facial recognition predictive analytics big data and wearable tracking grow in power scale and scope a controversial ecosystem will exacerbate the acrimony over commercial data capture and analysis The only productive way forward is to get a grip on the key problems right now and change the conversation That is exactly what Jules Polonetsky Omer Tene and Evan Selinger do They bring together diverse views from leading academics business leaders and policymakers to discuss the opportunities and challenges of the new data economy

Technofeminist Storiographies Kristine L. Blair, 2018-12-20 *Technofeminist Storiographies* Women Information Technology and Cultural Representation analyzes both historical and contemporary accounts of women's lived experiences of technology from Ada Lovelace and Hedy Lamarr to women working across the tech industry today and juxtaposes them with larger cultural representations of women and technology The book explores both the relationship between gender and technology and the cultural contexts that enable and constrain that relationship questions that call for opportunities for women to share their lived experiences and to have such experiences represented across media genres Despite the rich complex stories and histories women have with technology as programmers inventors and workers media throughout history including film television games toys children's books and biographies often inadequately and inaccurately represent them Throughout the book Kristine Blair chronicles the portrayal of the relationship between women and information technology across these media genres Inevitably the societal conditions that surround technology use including portrayal through popular media impact the extent to which women and girls gain and maintain access within those cultural contexts This book calls for a more visible history of women's technological achievements in which their stories are heard for generations to come rather than be forgotten and unknown

Essentials of Medicinal and Aromatic Crops Muhammad Zia-Ul-Haq, Arwa Abdulkreem AL-Huqail, Muhammad Riaz, Umar Farooq Gohar, 2023-10-09 Medicinal and aromatic crops MACs are high value crops since the natural products obtained from them are low volume high value commodities that have numerous applications in various sectors such as the food beverage food supplement flavor and fragrance perfumery and cosmetics pharmaceutical and aromatherapy industries In addition the plant biomass is used in the production of teas and medical applications in traditional and also modern medicines MACs are important mainly because they contain plant secondary metabolites such as essential oils alkaloids glycosides saponins tannins vitamins and other bioactives Plant secondary metabolites are differentiated from plant primary metabolites of

photosynthesis and respiration since they are directly involved in growth and development of plants Some MACs are used as spices and culinary herbs since they contain mainly essential oils and are used as tonic to the digestive system appetite modification and other systems and may facilitate nutrient uptake and utilization from various foods A significant amount of MACs and their natural products have also demonstrated antimicrobial antifungal and bactericidal activity and significant antioxidant capacity In the past MACs and their natural products have been used as a source for various medicines in food and beverage production and in aroma products Essentials of Medicinal and Aromatic Crops summarizes the current knowledge on medicinal and aromatic crops including the agronomical practices of important MACs and their products their beneficial effects and utilization of MAP and their products The chapters provide a comprehensive guide to the most important and used medicinal and aromatic crops and their use in functional foods nutraceuticals and as bioactives against various ailments providing researchers teachers chemists food scientists agronomists and agroecologists in academia industry and government a fully up to date singular source on this important topic
