Mission & Science Carine Dujardin,Claude

Prudhomme,2015-03-26 Science as an instrument to justify religious missions in secular society The relationship between religion and science is complex and continues to be a topical issue However it is seldom zoomed in on from both Protestant andCatholic perspectives By doing so the contributing authors in this collection gain new insights into the origin and development of missiology Missiology is described in this book as a project of modernity a contemporary form of apologetics Scientific apologetics was the way to justify missions in a society that was rapidly becoming secularized Mission Sciencedeals with the interaction between new scientific disciplines historiography geography ethnology anthropology linguistics and new scientific insights Darwin s evolutionary theory heliocentrism as well as the role of the papacy and what inspired missionary practice first in China and the Far East and later in Africa The renewed missiology has in turn influenced the missionary practice of the twentieth century guided by apostolic policy Some missionary scholars have even had a significant influence on the scientific discourse of their time
