Singh,Kumar Sambhav Pareek**

University Of Johannesburg Application Form 2016:

ECCWS2016-Proceedings for the 15th European Conference on Cyber Warfare and Security " Robert Koch, Gabi Rodosek, 2016-06-15 These proceedings represent the work of researchers participating in the 15th European Conference on Cyber Warfare and Security ECCWS 2016 which is being hosted this year by the Universität der Bundeswehr Munich Germany on the 7-8 July 2016. ECCWS is a recognised event on the International research conferences calendar and provides a valuable platform for individuals to present their research findings, display their work in progress and discuss conceptual and empirical advances in the area of Cyberwar and Cyber Security. It provides an important opportunity for researchers and managers to come together with peers to share their experiences of using the varied and expanding range of Cyberwar and Cyber Security research available to them. With an initial submission of 110 abstracts after the double-blind peer review process, there are 37 Academic research papers and 11 PhD research papers, 1 Master's research paper, 2 Work In Progress papers and 2 non-academic papers published in these Conference Proceedings. These papers come from many different countries including Austria, Belgium, Canada, Czech Republic, Finland, France, Germany, Greece, Hungary, Ireland, Kenya, Luxembourg, Netherlands, Norway, Portugal, Romania, Russia, Slovenia, South Africa, Sweden, Turkey, UK and USA. This is not only highlighting the international character of the conference but is also promising very interesting discussions based on the broad treasure trove of experience of our community and participants.

Engineering Tools and Solutions for Sustainable Transportation Planning Knoflach, Hermann, Ocalir-Akunal, Ebru V., 2017-02-14 While modern cities continue to grow and become more efficient in many sectors as their population increases, public transportation has not yet caught up. As a significant industry in contemporary society, further progress in transportation systems is more vital than ever. *Engineering Tools and Solutions for Sustainable Transportation Planning* is an informative reference source that outlines why current transportation systems have become inefficient in modern societies and offers solutions for the improvement of transportation infrastructures. Highlighting key topics such as parking organization, car ownership, energy consumption and highway performance, this is a detailed resource for all practitioners, academics, graduate students and researchers that are interested in studying the latest trends and developments in the transportation sector.

Nanohybrid Materials for Water Purification Sarat K. Swain, 2022-08-12 This book comprehensively reviews the key topics in the area of nanocomposites and hybrid materials used for waste water treatment and purification. It covers materials chemistry, various synthesis approaches and properties of these nanomaterials for the different water purification techniques. It provides new direction to the readers to better understand the chemistry behind these materials and the methods to improve their properties. This book will be a very valuable reference source for graduates and postgraduates, engineers, research scholars primarily in the field of material science, water nanoscience and nanotechnology, material scientists, researchers in the water-related area, scientists working in water treatment plants and pollution mitigation industries.

Recent Advances in Applied Thermal Imaging

for Industrial Applications Santhi, V.,2017-03-16 Although the technological boom has resulted in many advancements in modern society it has also come with a few downfalls most notably the failure of new machines and equipment This has prompted engineers to find suitable diagnostics tools to stop impending malfunctions and make working environments more efficient Recent Advances in Applied Thermal Imaging for Industrial Applications is a critical reference source that outlines innovative analysis tools to combat systems failure in thermal imaging Highlighting pertinent topics such as fuzzy c means technique human health diagnosis system multidimensional processing and optical analysis this is an ideal resource for all engineers practitioners industry leaders and researchers who are interested in staying up to date with advances in thermal imaging which prevents industrial system malfunctions Redefining Education and Development Kaitano Dube,2024-10-18 The book aligns with the United Nations Sustainable Development Goals SDGs particularly Goal 4 which focuses on quality education It explores the evolving role of education as a critical driver for achieving all 17 SDGs by providing a platform for discussing innovative educational models and theories that foster sustainable development The book takes an interdisciplinary approach merging educational theory developmental practice and human psychology to address complex global challenges hindering sustainable development The book includes case studies and empirical research such as exploring student entrepreneurship in the agricultural sector and the factors bridging the gap between entrepreneurial intention and venture creation These examples provide readers with practical applications of theoretical concepts and demonstrate the real world impact of educational innovations which is at the core of education delivery for all and how education touches on other areas of the SDGs The book offers valuable insights for policymakers educators and development practitioners by presenting research and theory based analyses It suggests ways to improve the academic environment to foster entrepreneurship and innovation which are key to economic development and job creation especially in regions with high youth unemployment rates The content suggests educational reforms that are responsive to the changing societal and economic landscapes The book s blend of theory and practice targets a broad audience including academic scholars students development agencies non governmental organisations and policymakers It seeks to engage these diverse readers in a conversation about the future of education and its role in achieving sustainable development In summary the book seeks to provide a comprehensive exploration of the nexus between education development and human needs in the context of the SDGs offering innovative perspectives and practical solutions to equip readers to contribute to sustainable global development **ECRM2016-Proceedings of the 15th European Conference on Research Methodology for Business Management** " Vladlena Benson,Fragkiskos Filippaios,2016-05-20 *An Indoor Air Quality Management Framework for Municipal Buildings in Developing Economies* Mpho Ndou,Clinton Ohis Aigbavboa,Wellington Didibhuku Thwala,Abdul-Majeed Mahamadu,2025-05-06 This book delves into the pivotal issue of Indoor Air Quality IAQ management in municipal buildings within developing economies addressing a pressing need in today s digital age where individuals spend

over 70% of their time indoors With a strong focus on enhancing environmental quality this book presents theoretical frameworks and practical recommendations designed explicitly for stakeholders in the higher education sector encompassing both public and private institutions As institutions strive to improve their learning environments this book aligns with global Sustainable Development Goals SDGs highlighting the vital connection between effective IAQ management and the health and well being of the institutional community including students and staff members It provides a comprehensive framework that advocates for improved IAQ management and emphasises the importance of quality education and lifelong learning Furthermore this book serves as a valuable resource for green building regulatory bodies ensuring adherence to best practices in IAQ management within municipal buildings By providing actionable strategies grounded on recent literature the book is an essential guide for researchers and policymakers seeking to navigate the theoretical and empirical dimensions of IAQ management Moreover this book asserts that enhancing IAQ is necessary not only for regulatory compliance and community well being but also as a vital investment in the academic and operational success of municipal buildings in developing economies

Tian, Anwesha Borthakur, Pramit Verma, Ajay Kumar, 2021-08-02 *Waste Management Policies and Practices in BRICS Nations* explores recent developments in waste management BRICS nations are the emerging economies of the world Increasing populations urbanization industrialization and uses of chemical fertilizer and pesticide in agriculture for enhanced productivity of food especially in India and China to support the large populations harm the natural environment The rise in the living standards of the human population has increased environmental pollution manifold resulting in the huge generation of biodegradable and non biodegradable waste simultaneously which has contaminated natural resources such as soil water and air It has led to undesirable effects on the environment and human health The book offers comprehensive coverage of the most essential topics including Waste management problems with special reference to MSW in Brazil Russia India China and South Africa Solid waste management in BRICS nations Hazardous waste management in BRICS nations Policies and laws in BRICS nations This book contains both policies and methods used for the management of waste in BRICS nations The chapters incorporate both policies and practical aspects **Sport, Culture and Society** Grant

Jarvie, 2017-07-20 What can sport do to produce social change in our world today It is impossible to fully understand contemporary society and culture without acknowledging the importance of sport Sport is part of our social and cultural fabric possessing a commercial power that makes it a potent force in the world for good and for bad It has helped to start wars and promote international reconciliation and governments around the world commit public resources to sport Sport matters but how should you make sense of what is going on in the world of sport today Now in a fully revised updated and expanded third edition this critical challenging and comprehensive textbook introduces the study of sport culture and society International in scope it challenges us to reactivate an audacious spirit of activism through sport Full of contemporary examples it places sport at the heart of the analysis and introduces the reader to every core topic and emerging area in the study of sport and society including the history and politics of sport sport gender and sexuality sport disability and advocacy sport race and racism sport violence and crime sport and health sport globalisation and democracy sport media and cultural relations sport and the environment sporting cities and mega events sport poverty and development Each chapter includes a wealth of useful features including Sport in Focus case studies chapter summaries guides to further reading revision questions practical projects definitions of key concepts and weblinks Additional teaching and learning resources including a testbank resource list and glossary are available on a companion website *Sport Culture and Society* is the most broad ranging in depth and thoughtful introduction to the sociocultural analysis of sport currently available and sets a new agenda for the discipline It is essential reading for all students with an interest in sport *Intersection of Artificial Intelligence, Data Science, and Cutting-Edge Technologies: From Concepts to Applications in Smart Environment* Yousef Farhaoui, Tutut Herawan, Agbotiname Lucky Imoize, Ahmad El Allaoui, 2025-06-30 Offering a comprehensive exploration this book navigates through foundational concepts to advanced applications providing readers with a holistic understanding of how these

domains intersect to create intelligent and responsive environments The Intersection of Artificial Intelligence Data Science and Cutting Edge Technologies From Concepts to Applications in Smart Environments delves into the convergence of AI data science and innovative technologies within the realm of smart environments Through a blend of theoretical insights and practical examples the book illuminates the synergies between AI and data science showcasing their pivotal roles in shaping the future of smart environments From sensor technologies to machine learning algorithms the text elucidates the mechanisms driving intelligence in these environments while also delving into the ethical considerations and societal impacts of deploying such technologies Whether you re a researcher practitioner or enthusiast in the fields of AI data science or smart environments this book serves as a guiding beacon offering valuable insights and methodologies to navigate the complexities of creating and optimizing intelligent environments for the benefit of society

Archaeology in Africa. Potentials and perspectives on laboratory & fieldwork research Savino di Lernia, Marina Gallinaro, 2019-09-24 Africa encompasses a multitude of environments and biomes that require specific scientific strategies from desktop studies to field research to laboratory analysis to tackle research questions that may range from the emergence of early humans to the ethnoarchaeological investigation In several areas turmoil social instability and security constraints hamper or limit field activities and long term funded programs The kidnapping of German colleagues and the tragic death of two local collaborators in Nigeria urge to rethink our agenda and challenge our view of current research practice This 1st Workshop on Archaeology in Africa organized by Sapienza University of Rome convened several researches from Italy or Italy based researchers The aim was to present and discuss theoretical methodological and financial problems for Africanist researchers today In a global perspective the synergy between research groups is crucial The need to intensify the national and international cooperation is also an essential step This book collects a selection of the different perspectives presented to the workshop mostly focussing from North Africa and East Africa

Business Research Pieter W. Buys, Merwe Oberholzer, 2023-03-14 This book focuses on research methodologies that apply to business research particularly for researchers and managers embarking thereon to support managerial decision making in the industry In doing so the book s objective is to guide business researchers in identifying defining and applying rigorous academic methodologies that will enable them to formulate design and execute effective research that answers their specific management problems Such guidance can empower organizational managers to understand that business research can contribute to practical solutions to actual problems experienced in the industry In addition by emphasizing the integrative nature between 1 academic research and 2 experienced industry problems it becomes possible to foster an awareness of such research s potential impact on organizational performance management sustainability and resilience With that attention is given to narrowing the gap between theory and practice which requires that fundamentals of scientific research be adhered to while maintaining the delicate balance between a practice friendly guide to pragmatically sound and academically rigorous business research

Advances in Engineering Materials, Structures and Systems: Innovations, Mechanics and Applications Alphose

Zingoni, 2019-08-21 Advances in Engineering Materials Structures and Systems Innovations Mechanics and Applications comprises 411 papers that were presented at SEMC 2019 the Seventh International Conference on Structural Engineering Mechanics and Computation held in Cape Town South Africa from 2 to 4 September 2019 The subject matter reflects the broad scope of SEMC conferences and covers a wide variety of engineering materials both traditional and innovative and many types of structures The many topics featured in these Proceedings can be classified into six broad categories that deal with i the mechanics of materials and fluids elasticity plasticity flow through porous media fluid dynamics fracture fatigue damage delamination corrosion bond creep shrinkage etc ii the mechanics of structures and systems structural dynamics vibration seismic response soil structure interaction fluid structure interaction response to blast and impact response to fire structural stability buckling collapse behaviour iii the numerical modelling and experimental testing of materials and structures numerical methods simulation techniques multi scale modelling computational modelling laboratory testing field testing experimental measurements iv innovations and special structures nanostructures adaptive structures smart structures composite structures bio inspired structures shell structures membranes space structures lightweight structures long span structures tall buildings wind turbines etc v design in traditional engineering materials steel concrete steel concrete composite aluminium masonry timber glass vi the process of structural engineering conceptualisation planning analysis design optimization construction assembly manufacture testing maintenance monitoring assessment repair strengthening retrofitting decommissioning The SEMC 2019 Proceedings will be of interest to civil structural mechanical marine and aerospace engineers Researchers developers practitioners and academics in these disciplines will find them useful Two versions of the papers are available Short versions intended to be concise but self contained summaries of the full papers are in this printed book The full versions of the papers are in the e book *South African Cultural Studies*

Christopher J. Lee, Andrew Offenburger, 2025-09-16 This book offers a holistic guide as to how South African identity and culture can be understood in the past present and future Drawing from the rich archive of previously published articles from the journal *Safundi South African Cultural Studies* documents the mutual histories of the country and the journal over the past quarter century Divided into six sections the first section addresses cultural figures including Oprah Winfrey Trevor Noah Olive Schreiner and Dimitri Tsfendas an unusual group that illustrates the unique and international character of South African culture The second part brings attention to the important role that photography has had in depicting and narrating South African cultural life whether through the intimacies found in recent images by Zanele Muholi or the historical work of David Goldblatt and Santu Mofokeng The third section of the book looks at music as another idiom that has proven indispensable for South African social life with Miriam Makeba Rodriguez and Die Antwoord providing examples The fourth and fifth sections of this book address sexuality and film respectively underscoring at once the contrasting approaches to

popular culture that have surfaced in South Africa as well as their requisite abilities for grasping everyday tastes and mores. The worlds of *Ms* magazine, District 9, Black Panther, and Spike Lee to pick only several topics raised supply ways of thinking across these chapters. The final section of the volume concludes with the role of place in the construction of culture, whether museums, national monuments, the Spur restaurant franchise, or landscapes like the Karoo. This book will be an indispensable resource for scholars, students, activists, and critics, as well as readers who are generally interested in understanding South Africa's cultural history over the past century.
