Dictionary of Minor Planet Names Lutz Schmadel, 2003-08-05 Dictionary of Minor Planet Names Fifth Edition is the official reference for the field of the IAU which serves as the internationally recognised authority for assigning designations to celestial bodies and any surface features on them The accelerating rate of the discovery of minor planets has not only made a new edition of this established compendium necessary but has also significantly altered its scope this thoroughly revised edition concentrates on the approximately 10 000 minor planets that carry a name It provides authoritative information about the basis for all names of minor planets In addition to being of practical value for identification purposes this collection provides a most interesting historical insight into the work of those astronomers who over two centuries vested their affinities in a rich and colorful variety of ingenious names from heavenly goddesses to more prosaic constructions The fifth edition serves as the primary reference with plans for complementary booklets with newly named bodies to be issued every three years *The London Mercury*, 1937 *Fruit Fly Research and Development in Africa - Towards a Sustainable Management Strategy to Improve Horticulture* Sunday Ekesi, Samira A.
