Institute**

University Of Nairobi Postgraduate Intake 2015 2016:

Lawyers in 21st-Century Societies Richard L Abel, Ole Hammerslev, Hilary Sommerlad, Ulrike Schultz, 2020-04-02 The world's legal professions have undergone dramatic changes in the 30 years since publication of the landmark three volume *Lawyers in Society* which launched comparative sociological studies of lawyers. This is the first of two volumes in which scholars from a wide range of disciplines, countries and cultures document and analyse those changes. The present volume presents reports on 46 countries with broad coverage of North America, Western Europe, Latin America, Asia, Australia, North Africa and the Middle East, sub-Saharan Africa and former communist countries. These national reports address the impact of globalisation and neoliberalism on national legal professions, the relationship of lawyers and their professional associations to the state and tensions between state and citizenship, changes in lawyer demography, rapidly growing numbers and the profession's efforts to retain control, the entry of women and obstacles to full gender equality, ethnic diversity, legal education, the proliferation of institutions and pedagogic innovation, the regulation of lawyers, structures of production, especially the growth of large firms and the impact of technology and paraprofessionals, the distribution of lawyers across roles and access to justice, state funded legal aid and pro bono services. The juxtaposition of the reports reveals the dramatic transformations of professional rationales, labour markets and working practices and the multiple contingencies of the role of lawyers in societies experiencing increasing juridification within a new geopolitical order. **Supporting Entrepreneurship and Innovation**

Janet Crum, Samantha Schmehl Hines, 2019-04-29 Libraries have recently begun doing more to support entrepreneurship and innovation within their communities. This volume explores how this has come about, looking at libraries from across North America, Europe and Africa, and helps position readers to better understand what is happening and how this can be brought to further institutions. *Graduate Programs in the Humanities, Arts & Social Sciences 2015 (Grad 2)* Peterson's, 2014-11-25 Peterson's *Graduate Programs in the Humanities, Arts, Social Sciences 2015* contains details on more than 11,000 graduate programs of study across all relevant disciplines, including the arts and architecture, communications and media, psychology and counseling, political science and international affairs, economics and sociology, anthropology, archaeology and more. Informative data profiles include facts and figures on accreditation, degree requirements, application deadlines and contact information, financial support, faculty and student body profiles. Two-page in-depth descriptions written by featured institutions offer complete details on specific graduate programs, schools or departments, as well as information on faculty research. Comprehensive directories list programs in this volume as well as others in the graduate series.
