University Private Admissions 2015 16:

Emerging Dynamics in the Provision of Private Higher Education in Africa Wondwosen Tamrat, Damtew

Teferra, 2024-05-29 This edited book examines the private higher education PHE sector in African countries. Reports suggest that private institutions across the continent outnumber their public counterparts yet there has been little scholarly investigation into this emerging phenomenon. The book therefore seeks to document and analyse key trends and contemporary themes in the PHE sector as well as chart historical developments, policy and regulatory frameworks. As a whole, it provides the reader with in-depth knowledge, rich perspectives and robust analyses from leading authorities in the field. Contributions from all sub-regions combine thematic issues with shaping discourse on the topic and the discussions are undertaken in the context of global perspectives. The book will be of interest to academics, researchers, postgraduate students, policy makers, analysts and development partners interested in African higher education and PHE in particular.

Prospects and Future Tasks of Universities Austrian Council for Research Development, 2017-09-12 Universities are undergoing an extraordinary transformation. Digital technologies have altered research and teaching while modern communication media and social media promote an interactive exchange of information with society that has accelerated international knowledge transfer. At the same time, new educational careers are available in growing higher education fields. How can universities meet these and other challenges? Reputable experts come together in this book to design scenarios for universities in the 21st century. Series: Research and Science, Forschung und Wissenschaft, Vol. 2, Subject: Research Studies, Higher Education. *Private Education In Singapore: Contemporary Issues And Challenges* Choon-yin Sam, 2017-05-23 Not much has been written about the private education sector in Singapore despite the fact that the sector houses about 300 private education institutions (PEIs) and enrolls about 150,000 students. *Private Education in Singapore: Contemporary Issues and Challenges* is an exciting book that aims to fill a gap in the literature. In the book, the author offers an extensive discussion on: i) the key elements of the sector types and features of the PEIs; ii) the regulatory framework for private education; iii) students' aspiration and the impact of the ASPIRE report on PEIs; and iv) the provision of external degree programmes through transnational partnership. The book also tackles the hotly debated discussion in relation to academic quality and standard of PEI courses. The author identifies the reasons some of them have more characteristics of a myth and suggests a number of ways to overcome the issues and challenges. **India's Private Health Care Delivery** Sanjeev

Kelkar, 2021-02-19 This book brings together all the major components of the private health care sector in India with detailed description of its evolution, the foundational ideas, its development, the positives and ill effects on the population. It suggests intelligible and practical remedies for public good. The book presents a comprehensive review of the private health care sector's resistance to Indian Government's reforms like the National Medical Commission (NMC) Act and the new boost to the traditional medicine by the Indian government. The author has discussed contentious areas like Corporate

Hospitals Capitation Fee Colleges Pharmaceutical Industry Western Models in Health Care Integration of Medical Systems Ayushman Bharat Scheme Health Insurance and Public Private Partnership on a massive scale **Between Mission and Market**

Daniel Rosenberg, 2017-04-26 Between Mission and Market The Freshman Year in a Corporate Age focuses on the arrival of college freshmen at the moment of the transformation it uses Adelphi University in suburban New York City to study an attempt to resolve first year difficulties As higher education institutions turn into enterprises run on business models the pressures of getting into college including the taking of the SAT and ACT have induced stress addictions eating disorders drug use and mental problems However special programs to ease the first year transition through counseling and support are run as cheaply as possible This book confronts some of the cardinal controversies in higher education particularly those affecting first year students high stakes testing in general particularly the SAT the intensification of student debt and the financial sentence imposed upon all who incur it and the dramatic pressures placed upon freshmen as they transition to college **Azerbaijan: Moving Toward More Diversified, Resilient, and Inclusive Development**

Aimee Hampel-Milagrosa, Aziz Haydarov, Kym Anderson, Jasmin Sibal, Edimon Ginting, 2020-08-01 Azerbaijan has set the course for the economy to reduce its dependence on oil by promoting new drivers of growth By 2025 under the government's Strategic Roads Maps a more diversified economy should take shape led by three sectors agriculture tourism and manufacturing Bold reforms need to strengthen areas of the economy that could otherwise impede this transition and policy makers must resolutely stay on the reform path The core message of this publication is diversification toward non oil sources of growth alongside efforts to reduce macroeconomic risks and the high cost of finance make the education system responsive to the needs of the labor market close infrastructure gaps and help economically significant state owned enterprises become more efficient Urban and Regional Planning and Development

Rajiv R. Thakur, Ashok K. Dutt, Sudhir K. Thakur, George M. Pomeroy, 2020-02-10 This book discusses urban planning and regional development practices in the twentieth century and ways in which they are currently being transformed It addresses questions such as What are the factors affecting planning dynamics at local regional national and global scales With the push to adopt a market paradigm in land development and infrastructure the relationship between resource management sustainable development and the role of governance has been transformed Centralized planning is giving way to privatization not only in the traditional regions but also in newly emerging regions of Asia Africa and Latin America Further attempts are being made to bring planning related decision making closer to the people who are most affected by it Presenting a collection of studies from scholars around the world and highlighting recent advances in the field the book is a valuable reference guide for those engaged in urban transformations whether as graduate students researchers practitioners or policymakers **The Status of Student Involvement in University Governance in Kenya**

M. Mulinge, N. Arasa, 2017-05-05 This book examines the concept of the democratization of governance in universities in Kenya with particular emphasis on students involvement in governance

processes and decision making Data were collected from members of the student community utilizing a structured self administered questionnaire and from purposively selected key informants and focus group discussants drawn from Kenyatta University representing the public sector and the United States International University representing the private sector The guiding argument for the study was that shared governance one of the principles of good governance is critical in enabling the universities to deliver their visions and the missions effectively The results revealed that while in principle Kenyan universities have embraced democratic governance in which all stakeholders including students have a role to play in practice they continue to violate the core principles of good governance particularly shared governance Specifically students who are major stakeholders in university education are largely excluded from significant structures of governance thereby limiting their influence and participation Although their representation is mainly provided via student self governance organs unions associations and or councils their effectiveness is undermined considerably by the lack of trust and confidence of the student body and the unending manipulation by top university administrators and external political actors Student active involvement in decision making is mainly confined to lower levels such as the school faculty and departmental programme The authors call for a paradigm shift in the involvement of students in the governance of universities in ways that discourage the current culture of tokenism and political correctness that characterizes public and private universities in Kenya

The Abundant University Michael D. Smith, 2023-09-19 Why our current system of higher education is financially and morally unsustainable and how to address the crisis with the creative implementation of digital technologies For too long our system of higher education has been defined by scarcity scarcity in enrollment scarcity in instruction and scarcity in credentials In addition to failing students professionally this system has exacerbated social injustice and socioeconomic stratification across the globe In The Abundant University Michael D Smith argues that the only way to create a financially and morally sustainable higher education system is by embracing digital technologies for enrolling instructing and credentialing students the same technologies that we have seen create abundance in access to resources in industry after industry The Abundant University explains how we got our current system why it is such an expensive inefficient mess and how a system based on exclusivity cannot foster inclusivity Smith challenges the resistance to digital technologies that we have already seen among numerous institutions citing the examples of faculty resistance toward digital learning platforms While acknowledging the understandable self preservation instinct of our current system of residential education Smith makes a case for how technology can engender greater educational opportunity and create changes that will benefit students employers and society as a whole

Thus Until Emilia Ilieva, Reuben Matheka, 2025-08-04 Thus Until A History of Egerton University is a thorough historical chronological and well researched account of Egerton University from a whites only college when it started in 1939 through to the expansion it has experienced over the years culminating in being a full university More than any other university in Kenya Egerton has a long and colourful history but like all the other universities it has suffered from

the political economic and financial challenges of the time especially since the double intake of the 1990s Chapter One provides the required background to the study highlighting agricultural and educational policies and steering away from the Happy Valley hype so characteristic of the period The reader will learn about the Egerton family in Chapter Two and particularly about Lord Egerton himself and the colonial circumstances within which he lived The chapter dispels some of the popularly held myths about him Chapter Three deals with the beginnings of the college and the various structural and curriculum experiments tried out and the kind of enrolment and students it experimented with as an all white establishment The chapter ends with Africans beginning to agitate for change With great attention to detail the later chapters put the university in a broader local and international context thereby increasing its relevance to society A History of Egerton University though heavily footnoted and with a detailed bibliography is written in a simple easy flowing and accessible style

The Future of Management Education Stéphanie Dameron, Thomas Durand, 2017-01-25 This book discusses the new challenges facing Business Schools around the world with potential scenarios that may be envisioned for 2030 and strategies for stakeholders Based on documented descriptions of competitive dynamics in the business of business schools in a variety of countries the authors highlight the fact that the industry of management education is going through major changes such as new governance and business models mergers and acquisitions internationalization of faculty and students coexisting with entrenchment in local markets ever more needs for financial resources development of distant and blended learning and increasing pressure for research output to boost rankings With concerns surrounding the sustainability of current trends in faculty salary inflation social acceptability of higher fees cost of distance learning and the risk of an academic industry divide around knowledge produced by management research The Future of Management Education develops an analysis of business models and institution regulation The two volumes cover the context of Business Schools in ten countries and grapples with the challenges they currently face They specifically discuss foresight scenarios and strategic implications for stakeholders Deans faculty students prospective students alumni local businesses corporations government accreditation bodies

MacDonald, 2021-01-12 Almost 50 million Americans have

cumulatively borrowed more than 1.5 trillion to attend college. Roughly one third of all adults aged 25 to 34 have a student loan. In *Education without Debt*, businessman and philanthropist Scott MacDonald examines the real life impact of crushing levels of student debt on borrowers and what can be done to fix this crisis. Weaving together stories of debt impaired lives with stories of personal success achieved with the essential help of financial aid, MacDonald reveals the devastating personal and societal impact of the debt problem and offers possible solutions. He explores the efforts of colleges and private philanthropists to make education affordable and relates his own experience of funding financial aid for need eligible students at five universities. *Education without Debt* is a must read book for anyone concerned about the rising cost of education and what to do about this critical policy and societal issue.
