Unlikely Stories Mostly Alasdair Gray:

Unlikely Stories, Mostly Alasdair Gray, 1984 Alasdair Gray's first book of short stories is a masterful collection that further established him as one of Scotland's most original and important writers when it first appeared in 1983. This new edition includes a new unlikely story 'Inches in a Column' that was lost at the time of original publication. **Alasdair Gray** Gavin Miller, 2005-01-01 Alasdair Gray's writing and in particular his great novel *Lanark: A Life in Four Books* 1981 is often read as a paradigm of postmodern practice. This study challenges that view by presenting an analysis that is at once more conventional and more strongly radical. By reading Gray in his cultural and intellectual context and by placing him within the tradition of a Scottish history of ideas that has been largely neglected in contemporary critical writing, Gavin Miller re-opens contact between this highly individualistic artist and those Scottish and European philosophers and psychologists who helped shape his literary vision of personal and national identity. Scottish social anthropology and psychiatry including the work of W. Robertson Smith, J. G. Frazer and R. D. Laing can be seen as formative influences on Gray's anti-essentialist vision of Scotland as a mosaic of communities and of our social need for recognition, acknowledgement and the common life. **Alasdair Gray** Rodge Glass, 2012-04-05 Alasdair Gray, author of the modern classics *Lanark*, *Poor Things* and *Janine*, is without doubt Scotland's greatest living novelist. Since trying unsuccessfully to buy him a drink in 1998, Rodge Glass first tutor and then secretary to the author, takes on the role of biographer, charting Gray's life from unpublished and unrecognised son of a box maker to septuagenarian little grey deity as Will Self has called him. A Jewish Mancunian, Boswell to Gray's Johnson, Glass seamlessly weaves a chronological narrative of his subject's life into his own diary of meeting, getting to know and working with the artist, writer and campaigner to create a vibrant and wonderfully textured portrait of a literary great. **Alasdair Gray** Stephen Bernstein, 1999-10 Since the publication of *Lanark* in 1981, Alasdair Gray has been a figure of importance in contemporary literature. Now, through attention to mixed genre, counter-historical narrative and the thematics of memory, this first study of Alasdair Gray's novels shows the coherence of the Scottish writer's varied body of work. Stephen Bernstein refuses to view Gray's work through the vague lens of postmodernism, seeing Gray instead as a writer at home in a variety of literary traditions. Beginning by providing an American audience with backgrounds to Gray's work, this study recounts the chronology of his publications and their reception by an international audience, simultaneously placing his writing in the contexts of Scottish culture and literature. **BOOK JACKET Title Summary field provided by Blackwell North America Inc. All Rights Reserved** **Every Short Story by Alasdair Gray 1951-2012** Alasdair Gray, 2012-11-15 Seventy-three short tales from Gray's earlier books are here joined with sixteen new tales. Droll, plausible, all the original illustrations with some new and endnotes to inform every curious reader. **The Gothic Condition** David Punter, 2016-04-20 breadth of range, attention to the psychological meanings of various forms of the Gothic, inclusion of material on some of the best-known Gothic texts including *Frankenstein* and *Dracula*. Alasdair Gray Phil Moores, 2002 This volume of essays contains a detailed

bibliography of Gray's writing and design illustration of his artwork and critiques from such diverse hands as Professor Philip Hobsbaum, Kevin Williamson, Jonathan Coe and others The Biteback Dictionary of Humorous Literary Quotations Fred Metcalf, 2013-11-05 If you're Wilde about Shaw but not Shaw about Wilde this classic collection of humorous literary quotations is the book for you. Within its pages you will find hundreds of hand-picked quotes in dozens of handy categories. All the big names are here from Henry James to Clive James, no relation from Waugh, Evelyn to War Poets from Dickens to Dictionaries and Twain to Twitter. Delve here and discover T. S. Eliot's advice on becoming a great writer; it's a bit anal. Find out what the critics said about Virginia Woolf and what Virginia Woolf said about the critics. And check out what it was about Jane Austen that got Mark Twain so hot under the collar. When dirt is dished, fat is chewed, sides are split and chins are wagged, the result dear reader is this richly entertaining book. **The Novel** Michael Schmidt, 2014-05-12 The 700-year history of the novel in English defies straightforward telling. Encompassing a range of genres, it is geographically and culturally boundless and influenced by great novelists working in other languages. Michael Schmidt, choosing as his travel companions not critics or theorists but other novelists, does full justice to its complexity. Mathematical Cultures Brendan Larvor, 2016-05-25 This collection presents significant contributions from an international network project on mathematical cultures, including essays from leading scholars in the history and philosophy of mathematics and mathematics education. Mathematics has universal standards of validity. Nevertheless, there are local styles in mathematical research and teaching and great variation in the place of mathematics in the larger cultures that mathematical practitioners belong to. The reflections on mathematical cultures collected in this book are of interest to mathematicians, philosophers, historians, sociologists, cognitive scientists and mathematics educators. **Short Stories** Joanne Collie, Stephen Slater, 1993-07-29 A collection of short stories with exercises designed to stimulate reading, listening and fluency skills. *Hell in Contemporary Literature* Rachel Falconer, 2019-07-29 This book explores the idea that modern Western secular cultures have retained a belief in the concept of Hell as an event or experience of endless or unjust suffering. Ma(r)king the Text Joe Bray, Miriam Handley, Anne C. Henry, 2018-12-20 First published in 2000, this volume is a unique collection of essays which draws our attention to the importance of those textual elements traditionally ignored in literary criticism. These include punctuation, footnotes, epigraphs, typography, cover design, white space and marginalia features which significantly affect the meaning of a literary text. The first section of the book opens with a proposal for a new theory of punctuation. The essays which follow are devoted to detailed interpretations of particular marks in the work of individual writers, including Spenser, Richardson and George Eliot. The consequences of this approach to the literary text are examined in the second section of the book, which begins with a debate on editorial practice and responsibility and features insights from editors. Attention is drawn in particular to the special issues thrown up by dramatic texts, translations and electronic editions. The relationship of marks to the main text is far from subordinate and we cannot appreciate the full interpretative potential of a text without considering

this The essays here compel us to assess the interaction of textual and literary meaning To mark a text is to make it

Literature in the Language Classroom Joanne Collie, Stephen Slater, 1987-12-17 A variety of imaginative techniques for integrating literature work with language learning Postmodernist Fiction Brian McHale, 2003-09-02 In this trenchant and lively study Brian McHale undertakes to construct a version of postmodernist fiction which encompasses forms as wide ranging as North American metafiction Latin American magic realism the French New Novel concrete prose and science fiction Considering a variety of theoretical approaches including those of Ingarden Eco Dolezel Pavel and Hrushovski McHale shows that the common denominator is postmodernist fiction's ability to thrust its own ontological status into the foreground and to raise questions about the world or worlds in which we live Exploiting various theoretical approaches to literary ontology those of Ingarden Eco Dolezel Pavel Hrushovski and others and ranging widely over contemporary world literature McHale assembles a comprehensive repertoire of postmodernist fiction's strategies of world making and unmaking

Reading the graphic surface Glyn White, 2018-02-28 This book critically engages with the visual appearance of prose fiction where it is manipulated by authors from alterations in typography to the deconstruction of the physical form of the book It reappraises the range of effects it is possible to create through the use of graphic devices and explores why literary criticism has dismissed such features as either unreadable experimental gimmicks or more recently as examples of the worst kind of postmodern decadence Through the examination of problematical texts which utilise the graphic surface in innovative and unusual ways including Samuel Beckett's Watt B S Johnson's Albert Angelo Christine Brooke Rose's Thru and Alasdair Gray's Lanark this book demonstrates that an awareness of the graphic surface can make significant contributions to interpretation
