Amnesiac Selves Nicholas Dames, 2001-06-14 With Joyce Proust and Faulkner in mind we have come to understand the novel as a form with intimate ties to the impulses and processes of memory This study contends that this common perception is an anachronism that distorts our view of the novel Based on an investigation of representative novels *Amnesiac Selves* shows that the Victorian novel bears no such secure relation to memory and in fact it tries to hide evade and eliminate remembering Dames argues that the notable scarcity and distinct unease of representations of remembrance in the nineteenth century British novel signal an art form struggling to define and construct new concepts of memory By placing nineteenth century British fiction from Jane Austen to Wilkie Collins alongside a wide variety of Victorian psychologies and theories of mind Nicholas Dames evokes a novelistic world and a culture before modern memory one dedicated to a nostalgic evasion of detailed recollection which our time has largely forgotten
