unduly restrict the right of host governments to implement their public policy including the protection of the environment and human rights and the promotion of social and economic justice within the host country on the other Since the first edition was published a number of landmark decisions have been produced by various international investment tribunals calling for an update in what is a fast growing and rapidly changing investment environment In addition scholars and other actors both non governmental and inter governmental have responded to the agenda set by the first edition of this book thus the second edition also reflects on the work of some of these major actors in the field This is perhaps the first book of its type authored by an international lawyer who has taught researched and advised in both the developed and developing world over the past 25 years The wealth of experience he brings to the task enables him to develop unique insights into the interplay between the law economics and politics of foreign investment making this book essential reading for students scholars practitioners and diplomats interested in the contemporary law of foreign investment
