The Ante-Nicene Fathers: Lactantius, [etc.], Apostolic teaching and constitutions, Homily, and Liturgies Alexander Roberts, Sir James Donaldson, Arthur Cleveland Coxe, Allan Menzies, 1886 **Numeric English New Testament** Ivan Panin, 2013-01-07 The Numeric New Testament was originally transcribed by Ivan Panin He believed he found a mathematical pattern in the Greek texts of the bible that would indicate the documents that were most authentic and correct Mr Panin devoted much of his life to proving the inspired Word contained certain watermarks by God to preserve its truth The Greek texts that contained this pattern were the ones he chose to be most reliable These Greek texts were then translated into English Ivan Panin used a literal word for word type translation for this work When word for word Greek was

too fragmented to read Mr Panin added additional words to give the sentence structure marking those words in italics The literal translating of words gives a new richness and depth into God s word With scripture renderings like And the Word became flesh and tabernacled among us Jn 1 14 and whosoever shall say Thou fool shall be in danger of the geenna of fire Mt 5 22 Amen I say to unto you that this race shall not pass away till all be accomplished Lk 21 32 Reading the Word from this translation will give new perspective of Scripture and is certainly worth adding to any collection of quality bible translations currently available This edition has been reformatted with easy navigation in mind **Wake up for Ascension to a New**
