Student Resistance to Apartheid at the University of Fort Hare Rico Devara Chapman, 2016-05-12 The book explores forms of popular student resistance to apartheid education in South Africa particularly at the University of Fort Hare UFH by tracing student activism at UFH from 1970 to 2000 highlighting the factors that influenced the development of a culture of student resistance investigating the root causes that made Fort Hare exceptional in its stand against apartheid and chronicling the educational and social implications that resulted from students unparalleled and fearless actions against the apartheid system Student resistance at Fort Hare can be traced as far back as the 1940s however this book will primarily focus on the critical 1970 2000 period which was marked by increased student activism in South Africa The 1980s and 1990s were peak years for student activism in the country There is no doubt that student struggles during this period and thereafter helped dismantle apartheid and usher in a new South African government

African Personhood and Applied Ethics Motsamai Molefe, 2020-02-03 Recently the salient idea of personhood in the tradition of African philosophy has been objected to on various grounds Two such objections stand out the book deals with a lot more The first criticism is that the idea of personhood is patriarchal insofar as it elevates the status of men and marginalises women in society The second criticism observes that the idea of personhood is characterised by speciesism The essence of these concerns is that personhood fails to embody a robust moral political view African Personhood and Applied Ethics offers a philosophical explication of the ethics of personhood to give reasons why we should take it seriously as an African moral perspective that can contribute to global moral political issues The book points to the two facets that constitute the ethics of personhood an account of 1 moral perfection and 2 dignity It then draws on the under explored view of dignity qua the capacity for sympathy inherent in the moral idea of personhood to offer a unified account of selected themes in applied ethics specifically women animal and development

Poverty Alleviation Pathways for Achieving Sustainable Development Goals in Africa Thokozani Simelane, 2020-10-28 The inability to eradicate poverty among societies demands a synergistic approach This calls for the development of multi pronged pathways for transitioning towards sustainable development goals Many of these have been developed and tested across the world Some have proved to be effective in illuminating the underlying cause of the world s inability to eradicate poverty This is being driven by the fact that sustainable development as a global development concept represents a multidimensional phenomenon that includes many different indicators of human development This volume which derives from the papers presented at the seventh Africa Unity for Renaissance Conference that was held at Freedom Park Pretoria South Africa seeks to supplement existing pathways by highlighting Africa s approach to poverty alleviation which can possibly be attained through enhanced nutrition food security energy and gender equity Evidence presented reflects strengths weaknesses and opportunities on how Africa can transition towards sustainable development goals The information provided is useful to countries interested in assisting Africa to develop pathways for achieving

Era? Robert Mugabe and a Conflicting Legacy Munyaradzi, Mawere,Marongwe, Ngonidzashe,2018-11-17 Arguably one of the most polarising figures in modern times has been Robert Gabriel Mugabe the former President of the Republic of Zimbabwe The mere mentioning of his name raises a lot of debate and often times vicious if not irreconcilable differences both in Zimbabwe and beyond In an article titled Lessons of Zimbabwe Mahmood Mamdani succinctly captures the polarity thus It is hard to think of a figure more reviled in the West than Robert Mugabe and his land reform measures however harsh have won him considerable popularity not just in Zimbabwe but throughout southern Africa This together with his recent stylised ouster speaks volumes to his conflicted legacy The divided opinion on Mugabe s legacy can broadly be represented first by those who consider him as a champion of African liberation a Pan Africanist an unmatched revolutionary and an avid anti imperialist who literally spoke the truth to Western imperialists On the other end of the spectrum are those who seemingly paying scant regard to the predicament of millions of black Zimbabweans brutally dispossessed of their land and human dignity since the Rhodesian days have differentially characterised Mugabe as a rabid black fascist an anti white racist an oppressor and a dictator Drawing on all these opinions and characterisations the chapters ensconced in this volume critically reflect on the personality leadership style and contributions of Robert Mugabe during his time in office from 1980 to November 2017 The volume is timely in view of the current contested transition in Zimbabwe and with regard to the ongoing consultations on the Land Question in neighbouring South Africa It is a handy and richly documented text for students and practitioners in political science African studies economics policy studies development studies and global studies United States Private Investment in South Africa United States. G-M Lulat, 2005-08-30 This book surveys the history of higher education principally universities in Africa Its geographical coverage encompasses the entire continent from Afro Arab Islamic Africa in the north to the former apartheid South Africa in the south and the historical time span ranges from the Egyptian civilization to the present Since little has been written on this topic particularly its historical component the work fills an important gap in the literature The book delineates the broad contours of the history of higher education in Africa in exceptional historical breadth voluminously documenting its subject in the text detailed footnotes and lengthy appendices Its methodological approach is that of critical historiography in which the location of the African continent in world history prior to the advent of European colonization is an important dimension In addition the book incorporates a historical survey of foreign assistance to the development of higher education in Africa in the post independence era with a substantive focus on the role of the World Bank It has been written with the following readership in mind those pursuing courses or doing research in African studies studies of the African Diaspora and comparative international education It should also be of interest to those concerned with developing policies on African higher education inside and outside Africa as well as those interested in African Islamic history the development of higher education in medieval Europe the contributions of African Americans to African higher education and such controversial approaches to the reading of African history as Eurocentrism and Afrocentrism **Partiality and Impartiality in African Philosophy** M. Molefe, 2021-11-10 Partiality and Impartiality in African Philosophy fills the lacuna in African philosophy literature on the inherent tension between requirements of partiality favoritism and impartiality equality Motsamai Molefe deploys two strategies to philosophically resolve the tension between partiality and impartiality The first strategy involves applying the moral theories of Kwasi Wiredu Thaddeus Metz and Kwame Gyekye to the problem Finding their views useful in some ways and seriously limited in others Molefe turns to the second strategy in which he invokes the salient normative concept of personhood in African cultures Molefe argues that the concept of personhood adjoins theories of human dignity and moral perfection virtue The major insight that emerges is a robust ethical theory qua personhood that accommodates both partiality and impartiality He grounds requirements of impartiality on human dignity which operates largely as a macro ethical concept that normatively informs the character of our social institutions politics

Politics is characterized by fairness equality and impartiality Partiality the agent and other centred forms of it is directly connected with the agent s chief moral duty to achieve her own virtue moral perfection which operates as a micro ethical concept These two kinds of moral partialism self favoritism and close ties such as family are justified by appeal to the project s view instead of the individuals and relationships view typically invoked to justify moral partiality in the literature

Department of Coloured Affairs,1964 **Education, Race, and Social Change in South Africa** John A. Marcum,2023-04-28 Education Race and Social Change in South Africa examines the deep rooted issues of higher education in South Africa highlighting the complex interplay between race politics and access to education Beginning with the colonial foundations of South African higher education in the early 19th century it traces the development of institutions such as the University of Cape Town and the University of Fort Hare reflecting the segregated nature of the education system As the country transitioned to a republic in the 20th century the policies of apartheid shaped the university landscape leading to the creation of separate institutions for various racial groups The book explores how these divisions have persisted particularly in the context of racial inequalities in enrollment and access to quality education with black students historically underrepresented in South Africa s leading universities The study also delves into the evolving nature of South African higher education in the face of racial segregation examining the impact of political shifts on the educational landscape With the rise of the National Party in 1948 and the implementation of strict segregation policies the book explores the creation of ethnic universities for non white students and the ongoing challenges faced by these institutions in providing quality education The book raises critical questions about the future of education in South Africa focusing on the need for reform to bridge the educational divide address teacher shortages and promote greater racial integration within universities It also considers the role of international collaboration and aid in fostering educational opportunities for black South Africans and suggests possible pathways for achieving equitable educational access This title is
