University Of Pretoria O Application 2016:

Hostile Business and the Sovereign State Michael J. Strauss, 2018-12-14 This book describes and assesses an emerging threat to states territorial control and sovereignty the hostile control of companies that carry out privatized aspects of sovereign authority The threat arises from the massive worldwide shift of state activities to the private sector since the late 1970s in conjunction with two other modern trends the globalization of business and the liberalization of international capital flows The work introduces three new concepts firstly the rise of companies that handle privatized activities and the associated advent of post government companies that make such activities their core business Control of them may reside with individual investors other companies or investment funds or it may reside with other states through state owned enterprises or sovereign wealth funds Secondly imperfect privatizations when a state privatizes an activity to another state s public sector The book identifies cases where this is happening It also elaborates on how ownership and influence of companies that perform privatized functions may not be transparent and can pass to inherently hostile actors including criminal or terrorist organizations Thirdly belligerent companies whose conduct is hostile to those of states where they are active The book concludes by assessing the adequacy of existing legal and regulatory regimes and how relevant norms may evolve

almost all sectors of human life and activity Borders, Legal Spaces and Territories in Contemporary International Law Tommaso Natoli, Alice Riccardi, 2019-09-12 This book examines the challenges posed to contemporary international law by the shifting role of the border which has recently re emerged as a central issue in international relations It posits that borders do not merely correspond to States boundaries indeed while remaining a fundamental tool for asserting States power they are in fact a collection of constantly changing spatial limits Consequently the book approaches borders as context specific limits and revisits notions traditionally linked to them jurisdiction sovereignty responsibility individual rights while also adopting the innovative approach of viewing borders as phenomena of both closedness and openness Accordingly the first part of the book addresses what happens within borders investigating the root causes of the emergence of spatial limits and re assessing apparent extra territorial assertions of State power In turn the second part not only explores typical borderless spaces but also more generally considers the exercise of States and international organisations powers and prerogatives across or beyond borders *Méthod(e)s* Jean-Bernard Ouédraogo, 2021-08-09 The bilingual French English journal *Méthod(e)s* founded in 2015 is an African initiative with the objective to enlarge the methodological debates on the Global South The desire for a strong understanding of methodology is to situate it above academic trends thereby placing it in line with a universal history of the sciences Just as calling dominant paradigms into question leaves room for creative opportunities so does the comparison of theoretical approaches and technical models of data collection Questions related to methods are not purely technical or merely philosophical reflections The examination of the method used in scientific investigations necessarily leads us to question the validity and consequences of research results From this point of view the journal *Méthod(e)s* is not a forum for simple discussions on the mechanics of research but a tool to question social interests influencing academic research and giving it a political function It is also intended to lead to a more critical look at the creation of theories dealing with the status of individuals and societies in Africa and the Global South *Méthod(e)s* aims to bring into question connect and compare the theoretical technical and political foundations of the social sciences as applied to human societies Each contribution is followed by a summary in the respectively other language In order to ensure a broad intellectual reach the editors reserve the right to include articles written in other languages All the abstracts of the papers are also available in Arabic Chinese and Spanish *Reflections on the 2019 South African General Elections* Joleen Steyn Kotze, Narnia Bohler-Muller, 2020-12-17 *Reflections on the 2019 South African General Elections* is a critical reflection on the key lessons of Elections 2019 in South Africa focusing on the future of the country s electoral democracy The volume engages questions on land election campaigns voter turnout voter apathy and how opposition parties will be forced to co exist in the context of declining electoral dominance the ANC once comfortably held An important reflection on the lessons of the 2019 South African General Elections the contributors ask Quo Vadis South Africa The 2019 General Elections marked a watershed in South Africa s political landscape The ANC under the banner of a narrative of regeneration and getting back on

the moral path dipped below the 60 % mark for the first time in South Africa's democratic history. This decline in electoral support for the party may be interpreted as a degeneration of the ANC through the loss of its moral stature, the erosion of its integrity and disillusionment with its performance as a governing party. Opposition political parties could not capitalise on this seeming disillusionment with the ruling ANC. Caught in their own factional battles and in the midst of corruption scandals, opposition parties were unable to successfully increase their share of the vote and capture the undecided and disillusioned voter. Considering the future of South Africa's electoral democracy at 25 years of democracy, Reflections on the 2019 South African General Elections will be of great interest to scholars of African Studies, South African Governance and Elections. The chapters in this book were originally published as a special issue of *Politikon: South African Journal of Political Studies*.

Afrikaans Linguistics WAM Carstens, Nerina Bosman, 2024-10-03. Offering a contemporary exploration of the multifaceted landscape of Afrikaans linguistics, *Afrikaans Linguistics: Contemporary Perspectives* marks a seminal contribution to the field. This volume for the first time presents accessible insights into diverse linguistics subdisciplines, inviting international scholars to familiarise themselves with Afrikaans language studies. Throughout much of the late 19th and 20th centuries, Afrikaans scholars predominantly communicated in Afrikaans, resulting in a significant gap in the dissemination of knowledge about the language. The chapters in this book, written by prominent South Africans as well as international scholars working in the field of Afrikaans, serve as a pivotal bridge by providing essential historical context while also paying attention to the development of Afrikaans linguistics during the 20th century. The primary focus remains on illuminating 21st-century research trajectories, offering a comprehensive snapshot of contemporary scholarship in Afrikaans linguistics.

Multilingual Education Yearbook 2021 Anthony A. Essien, Audrey Msimanga, 2021-05-04. This edited book attempts to foreground how challenges and complexities between policy and practice intertwine in the teaching and learning of the STEM subjects in multilingual settings and how they impact on educational processes, developments and outcomes. The unique feature of this book thus lies in its combination of not just language issues in the teaching and learning of the STEM subjects but also in how these issues relate to policy and practice in multilingual contexts and how STEM research and practice may inform and shape language policies and their implementation in multilingual contexts. This book is of interest to stakeholders involved in STEM education such as researchers, undergraduate and graduate students, tertiary level teachers, teacher educators, curriculum developers as well as other professionals with responsibilities in STEM education subjects. The book is written in a way that is accessible to a wide range of backgrounds, including those who are in language education.

Green Schools Globally Annette Gough, John Chi-Kin Lee, Eric Po Keung Tsang, 2020-08-31. This book brings together stories of the green schools movement: Eco Schools, Enviroschools, Green Schools, Sustainable Schools, ResourceSmart Schools etc. in several countries around the world, with a focus on the impact of the movement on the development and implementation of education for sustainable development in each of the countries. In

particular each story will explain the history of the movement per country its current status achievements obstacles and broader impact There have been a number of evaluations of these school movements at a national or more local level and numerous articles and chapters have been published on aspects of these schools activities but to date these have not been brought together in a single volume that focuses attention on the impact of the movement on education for sustainable development in each country This is the purpose of this volume The green schools movement focuses on a whole school approach which aims to include everyone students teachers and the local community to improve school environments including resource usage and the environmental footprint of the school to motivate students to take on environmental problems and seek resolutions particularly at a local level but also thinking globally and to improve students attitudes and behaviours as part of developing a sustainable mind set

Google Earth Engine Applications Lalit Kumar, Onesimo Mutanga, 2019-04-23 In a rapidly changing world there is an ever increasing need to monitor the Earth's resources and manage it sustainably for future generations Earth observation from satellites is critical to provide information required for informed and timely decision making in this regard Satellite based earth observation has advanced rapidly over the last 50 years and there is a plethora of satellite sensors imaging the Earth at finer spatial and spectral resolutions as well as high temporal resolutions The amount of data available for any single location on the Earth is now at the petabyte scale An ever increasing capacity and computing power is needed to handle such large datasets The Google Earth Engine GEE is a cloud based computing platform that was established by Google to support such data processing This facility allows for the storage processing and analysis of spatial data using centralized high power computing resources allowing scientists researchers hobbyists and anyone else interested in such fields to mine this data and understand the changes occurring on the Earth's surface This book presents research that applies the Google Earth Engine in mining storing retrieving and processing spatial data for a variety of applications that include vegetation monitoring cropland mapping ecosystem assessment and gross primary productivity among others Datasets used range from coarse spatial resolution data such as MODIS to medium resolution datasets Worldview 2 and the studies cover the entire globe at varying spatial and temporal scales

Lets delve into the realm of top-selling books, exploring the captivating narratives that have captivated audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This heartfelt tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. University Of Pretoria O Application 2016 : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you speculating until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
