University Of Witwatersrand 2015 Prospectus:

Global University Rankings and the Mediatization of Higher Education Michelle Stack, 2016-04-12 Higher Education Institutions simultaneously critique and participate in national and international rankings of universities. However, this creates a difficult situation since if universities do participate in rankings they acquiesce to a system based in media logics that has little to do with academic norms of research. If they do not participate in the rankings they risk losing public funding, students, and donors in an increasingly competitive and globalized environment. This book delves into the influence of journalists, business tycoons, and multinational corporations in defining what world class is and how it will be measured. Rankings provide us with a rich study for understanding how universities define, deploy, and manage their assets and liabilities in a mediatized, globalized economy.

Places of Privilege, 2018-07-19 Places of Privilege examines dynamics of privilege and power in the construction of place in a period of the rapid social transformation of places, borders, and boundaries. Drawing on interdisciplinary perspectives, the book examines place as a site for the making and re-making of privilege while considering new meanings of community and examining spaces for cultural identity and resistance. Chapters point to a range of conceptual resources that can be utilised to produce critical analyses of place-making. As the authors point out, power and privilege shape place, but these dynamics are in turn shaped by the specific place-based histories and social dynamics within which they are located. Contributors are Lutfiye Ali, Alison M. Baker, Paola Bilbrough, Tony Birch, Jora Broerse, Sally Clark, Josephine Cornell, Yon Hsu, Lou Iaquinto, Karen Jackson, Shose Kessi, Rebecca Lyons, Chris McConville, Nicole Oke, Amy Quayle, Alexandra Ramirez, Kopano Ratele, Christopher C. Sonn, and Ramon Spaaij.

Artefacts of Writing Peter D. McDonald, 2017-10-11 Some forms of literature interfere with the workings of the literate brain, posing a challenge to readers of all kinds, including professional literary critics. In *Artefacts of Writing*, Peter D. McDonald argues they pose as much of a challenge to the way states conceptualise language, culture, and community. Drawing on a wealth of evidence from Victorian scholarly disputes over the identity of the English language to the constitutional debates about its future in Ireland, India, and South Africa, and from the quarrels over the idea of culture within the League of Nations in the interwar years to UNESCO's ongoing struggle to articulate a viable concept of diversity, McDonald brings together a large ensemble of legacy writers, including T. S. Eliot, James Joyce, and Rabindranath Tagore, putting them in dialogue with each other and with the policy makers who shaped the formation of modern states and the history of internationalist thought from the 1860s to the 1940s. In the second part of the book, he reflects on the continuing evolution of these dialogues, showing how a varied array of more contemporary writers, from Amit Chaudhuri, J. M. Coetzee, and Salman Rushdie to Antjie Krog, Arvind Krishna Mehrotra, and Esia Mphahlele, cast new light on a range of questions concerning education, literacy, human rights, translation, indigenous knowledge, and cultural diversity that have preoccupied UNESCO since 1945. At once a novel contribution to institutional and intellectual history and an innovative exercise in literary and philosophical analysis, *Artefacts of Writing* affords a unique

perspective on literature's place at the centre of some of the most fraught often lethal public controversies that defined the long twentieth century and that continue to haunt us today *Four Future Seasons* Craig Wing, 2025-03-01 In an increasingly unpredictable world traditional methods of planning no longer suffice *Four Future Seasons* offers a groundbreaking approach to navigating uncertainty empowering readers to adapt to the future and actively shape it Drawing from international experiences doctoral research and diverse perspectives as a global expert in futures strategy Craig Wing's *Four Future Seasons* combines deep insights with practical strategies to anticipate disruptions and thrive in times of change This innovative model draws from diverse and fascinating concepts such as Rumsfeld's unknown unknowns the Johari Window and the timeless wisdom of the Japanese four season garden to offer a dynamic framework for identifying early signals of change and respond with agility More than a guide for business leaders this book is for anyone who wants to create a better future for themselves whether navigating personal growth leadership challenges or unforeseen life changes With personal stories of resilience and innovation woven throughout *Four Future Seasons* equips readers with the tools foresight and confidence to thrive through all seasons of life **A Scientific Bibliography of the Far Northern Drakensberg**

countries that engage these questions are presented The sixteen cases range from settings with older established planning systems e g USA the Netherlands and the UK to settings where the system is less set e g Brazil being remodeled e g South Africa and Bosnia Herzegovina and under stress e g Turkey and Poland Each chapter explores what might be done differently to prepare young planners for the complexities and challenges of their real worlds This book not only points out what is absent but also offers planning educators an alternative vision The editors and esteemed contributors provide reflections and suggestions as to how this new generation of young planners can be supported to survive in embrace and change the world they are encountering and in the spirit of planning endeavor to change it for the better *The changing spaces of television acting* Richard Hewett, 2017-08-17 This book provides a historical overview and then and now comparison of performing for British television drama By examining changing acting styles from distinct eras of television production studio realism and location realism it makes a unique contribution to both television and performance studies unpacking the various determinants that have combined to influence how performers work in the medium The book compares the original versions of *The Quatermass Experiment* BBC 1953 *Doctor Who* BBC 1963 89 and *Survivors* BBC 1975 77 with their respective modern day re makes unpacking the effects of the shift from multi camera studio to single camera location production Textual analysis is combined with extensive archival research into production process and reception alongside interviews with numerous actors and production personnel from more than sixty years of television production *Climate and the Picturesque in the American Tropics* Michael Boyden, 2022 This book explains how we came to think of the climate as something abstract and remote rather than a force that actively shapes our existence It shows how the writings of American travellers in the Caribbean registered and pushed forward a new understanding of the climate in a pivotal period in modern history roughly between 1770 and 1860 **Hans Christian Andersen in American Literary Criticism of the Nineteenth Century** Herbert Rowland, 2020-11-03 In *Hans Christian Andersen in American Literary Criticism of the Nineteenth Century* Herbert Rowland argues that the literary criticism accompanying the publication of Hans Christian Andersen s works in the United States compares favorably in scope perceptiveness and chronological coverage with the few other national receptions of Andersen outside of Denmark Rowland contends that American commentators made it abundantly evident that in addition to his fairy tales Andersen wrote several novels travelogues and an autobiography which were all of more than common interest In the process Rowland shows that American commentators naturalized Andersen in the United States by confronting the sensationalism in the journalism and literature of the time with the perceived wholesomeness of Andersen s writing deploying his long fiction on both sides of the debate over the nature and relative value of the romance and the novel and drawing on three of his works to support their positions on slavery the Civil War and Reconstruction **The Greatest Lives and Letters Volume 1** Sir John Alexander Hammerton, 2015-11-05 AB LARD AND H LO SE Love Letters I H lo se to Ab lard II Ab lard to H lo se III H lo se to Ab lard IV H lo se to Abelard V Ab lard to H lo se

Against Self-Reliance William Hunting Howell, 2015-03-03 Individualism is arguably the most vital tenet of American national identity American cultural heroes tend to be mavericks and nonconformists and independence is the fulcrum of the American origin story But in the late eighteenth and early nineteenth centuries a number of American artists writers and educational philosophers cast imitation and emulation as central to the linked projects of imagining the self and consolidating the nation Tracing continuities between literature material culture and pedagogical theory William Hunting Howell uncovers an America that celebrated the virtues of humility contingency and connection to a complex whole over ambition and distinction Against Self Reliance revalues and rethinks what it meant to be repetitive derivative or pointedly generic in the early republic and beyond Howell draws on such varied sources as Benjamin Franklin's programs for moral reform Phillis Wheatley's devotional poetry David Rittenhouse's coins and astronomical machines Benjamin Rush's psychological and political theory Susanna Rowson's schoolbooks and the novels of Charles Brockden Brown and Herman Melville to tease out patterns of dependence in early America With its incisive critique of America's storied heroic individualism Against Self Reliance argues that the arts of dependence were and are critical to the project of American independence

Arbitrary Power William Keach, 2015-07-28 This book explores previously unexamined links between the arbitrary as articulated in linguistic theories on the one hand and in political discourse about power on the other In particular Willam Keach shows how Enlightenment conceptions of the arbitrary were contested and extended in British Romantic writing In

doing so he offers a new paradigm for understanding the recurrent problem of verbal representation in Romantic writing and the disputes over stylistic performance during this period With clarity and force Keach reads these phenomena in relation to a rapidly shifting literary marketplace and to the social pressures in Britain generated by the French Revolution the Napoleonic Wars and the class antagonisms that culminated in the Peterloo Massacre The question of what it means to think of language or politics as arbitrary persists through postmodern thinking and this book advances an unfinished dialogue between Romantic culture and the critical techniques we currently use to analyze it Keach s intertwined linguistic and political account of arbitrary power culminates in a detailed textual analysis of the language of revolutionary violence Including substantial sections on Blake Wollstonecraft Wordsworth Coleridge Byron P B Shelley Keats and Anna Jameson Arbitrary Power will engage not only students and scholars of eighteenth and nineteenth century literature but also those interested in critical and linguistic theory and in social and political history
