*Universities, the Citizen Scholar and the Future of Higher Education* J. Arvanitakis, D. Hornsby, 2016-06-01 The future of higher education is in question as universities struggle to remain relevant to the present and future needs of society The context in which learning occurs is rapidly changing and those engaged and interested in the place and position of university education need to figure out to adapt This book embodies a vision for higher education where graduate attributes and proficiencies are at the core of the academic project where degree programs move beyond disciplinary content and where students are encouraged to be Citizen Scholars Through a series of cross disciplinary and contextual cases the contributors to this book articulate how this vision can be achieved in our pedagogical environments future proofing higher education

Assessing Academic Literacy in a Multilingual Society Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience

*Hidden Pretoria* Johan Swart, 2019-10-01 Despite being South Africa's capital city Pretoria has often played a supporting role to bold and brash Johannesburg and Cape Town's cosmopolitan charms However when it comes to architectural heritage the Jacaranda City is well endowed From the skyline dominating Union Buildings and Voortrekker Monument to the imposing edifices of its administrative precincts Pretoria might be deserving of a second moniker the city of sandstone brick and granite But when you look beyond the impressive facades soaring columns and linear planes of buildings that were intended to convey power and authority you'll find light filled interiors embellished with decorative touches that are only hinted at from the outside Murals mosaics domes galleries stained glass windows gleaming brass and impressive woodwork are often hidden from view behind doors that are closed to the public And even those museums buildings and places of worship that are open to all have noteworthy architectural and design features that are easily overlooked The history of the city and of the country has been played out in many of the buildings featured in *Hidden Pretoria* This book captures facets of our diverse heritage historic and contemporary so that a new generation might recognise the need to embrace the past in order to build our common future

*From Student to Urban Planner* Tuna Taşan-Kok, Mark Oranje, 2017-12-06 For many young planners the noble intentions with going to planning school seem starkly out of place in the neoliberal worlds they have come to inhabit For some the huge gap between

the power they thought they would have and what they actually do is not only worrying but also deeply discouraging But for some others practice means finding practical and creative solutions to overcome challenges and complexities How do young planners in different settings respond to seemingly similar situations like these What do they do give up adjust or fight back What role did their planning education play and could it have helped in preparing and assisting them to respond to the world they are encountering In this edited volume stories of young planners from sixteen countries that engage these questions are presented The sixteen cases range from settings with older established planning systems e g USA the Netherlands and the UK to settings where the system is less set e g Brazil being remodeled e g South Africa and Bosnia Herzegovina and under stress e g Turkey and Poland Each chapter explores what might be done differently to prepare young planners for the complexities and challenges of their real worlds This book not only points out what is absent but also offers planning educators an alternative vision The editors and esteemed contributors provide reflections and suggestions as to how this new generation of young planners can be supported to survive in embrace and change the world they are encountering and in the spirit of planning endeavor to change it for the better

**From #RhodesMustFall Movements to #HumansMustFall Movements** Artwell Nhemachena, Jairo Kangira, 2021-05-14 Might it be possible that the world is being migrated into an era where the imperial periphery will be increasingly governed through Artificial Intelligence AI and robotics designed to replace human beings Celebrated as efficient strong unfailing tireless precise and beyond corruption AI and robots are set to replace African leaders who are imperially deemed to be and consistently condemned as corrupt failed weak and inefficient But if these AI and robots are neo imperial tools and machinations the million dollar question is whether empire is not returning to recolonise the supposedly inefficient Africans via the new technologies and machinism Where Africans once celebrated their liberation war movements empire has emplaced what it calls liberation technologies designed to supposedly liberate African youths from their own states and governments led by liberation movements Where Africans once celebrated their liberation war movements empire has placed its own NGOs CSOs spewing liberal ideologies designed to ostensibly liberate African youths from their own supposedly failed and corrupt states and government leaders With African youths citizens allying not with their liberation movements but with the liberation technologies and liberal NGOs CSOs it is not surprising why African citizens oppose their states led Fast Track Land Redistribution Programmes while ironically they happily celebrate Fast Tracked COVID 19 Vaccines Posing the notion of HumansMustFall movements this book underscores ways in which empire is in a process of eternal return to 21st century Africa The book is crucial for scholars and activists in political science government studies sociology anthropology cultural studies history languages and communication studies security studies military studies and development studies

**Africa's trade facilitation preparedness & ethical property rights** Gbadebo Odularu,Bamidele Adekunle,Caiphaz Chekwoti,2024-05-01 With the AfCFTA in force and several regional integration initiatives ongoing in Africa effective implementation promises an economic

growth and development trajectory that defines the Africa we want as posited by the African policymakers within the context of the African Union's Agenda 2063. This is more evident with emerging dynamics characterised by unprecedented shocks and fast-paced evolution in the digital space. The implications of these dynamics beckon a rethinking of the strategies for riding on and above the wave. This book delves into some of the policy intricacies and generates both insights on emerging shocks, digitalisation, intellectual property rights and raises interesting issues for further reflection. It is a great read that illuminates critical trade issues with important policy implications.

Developmentalism, Dependency, and the State: Industrial Development and Economic Change in Namibia since 1900 Christopher Hope, 2020-09-23. Why does Namibia's economy look the way it does today? Was the reliance on raw materials for exports and on the service sector for employment an inevitability? And for what reasons has the manufacturing sector the vehicle for economic development for many now high-income countries throughout the 19th and 20th centuries seen its growth held back? With these questions in mind, this book offers an extensive analysis of industrial development and economic change in Namibia since 1900, exploring their causes, trajectory, vicissitudes, context and politics. Its focus is particularly on the motivations behind the economic decisions of the state, arguing that power relations both internationally and domestically have held firm a status quo that has resisted efforts towards profound economic change. This work is the first in-depth economic study covering both the colonial and independence eras of Namibia's history and provides the first history of the country's manufacturing sector.

**Supporting Multiculturalism and Gender Diversity in University Settings** Zhou, Molly Y., 2015-03-31. Despite modern technology and the focus on international business striving to make the world a smaller place, many organizations still struggle with the need for diversity and multiculturalism. This issue is also present in academia as women of color and those previously perceived to be in the ethnic minority continue the journey to become the educators and leaders that universities need. *Supporting Multiculturalism and Gender Diversity in University Settings* examines the experiences of some of these female leaders and what they learned in their rise through education and academia. Highlighting stories of feminism, race and what it means to use these life lessons in the classroom, this book is a valuable resource for higher education administrators, policymakers and women professionals everywhere.
