New Serial Titles ,1981 A union list of serials commencing publication after Dec 31 1949 The Strategic Repositioning of Arts, Culture and Heritage in the 21st Century George Mugovhani,Owen Seda,2018-06-11 The post millennium world has been experiencing several recognisable historical milestones with regard to arts culture and heritage One of these has been the resuscitation and revival of creative elements of the arts culture and heritage of previously marginalised or disadvantaged communities around the world Until recently there had been scant regard and skewed allocation of resources for these but lately attempts have been made to promote and sustain them in order to enable the socio economic aspirations of a multicultural society The contributions brought together here are the product of papers that were presented during a conference on Strategic Repositioning of Arts Culture and Heritage in the 21st Century They cover a broad spectrum of subjects such as indigeneity music song and identity politics national reconciliation education product development and national development *A World of Their Own* Meghan Healy-Clancy,2014-06-19 The politics of black education has long been a key issue in southern African studies but despite rich debates on the racial and class dimensions of schooling historians have neglected their distinctive gendered dynamics *A World of Their Own* is the first book to explore the meanings of black women s education in the making of modern South Africa Its lens is a social history of the first high school for black South African women Inanda Seminary from its 1869 founding outside of Durban through the recent past Employing diverse archival and oral historical sources Meghan Healy Clancy reveals how educated black South African women developed a tradition of social leadership by both working within and pushing at the boundaries of state power She demonstrates that although colonial and apartheid governance marginalized women politically it also valorized the social contributions of small cohorts of educated black women This made space for growing numbers of black women to pursue careers as teachers and health workers over the course of the twentieth century After the student uprisings of 1976 as young black men increasingly rejected formal education for exile and street politics young black women increasingly stayed in school and cultivated an alternative form of student politics Inanda Seminary students experiences vividly show how their academic achievements challenged the narrow conceptions of black women s social roles harbored by both officials and black male activists By the transition to democracy in the early 1990s black women outnumbered black men at every level of education introducing both new opportunities for women and gendered conflicts that remain acute today *Report of the Geological Survey of Natal and Zululand* Natal (South Africa).
