in turn contributes to the fragmentation of Hmong cultural heritage identity and community Based on a high school in an urban center with a considerable Hmong immigrant community Ngo s work draws on extensive ethnographic research with Hmong American community leaders school administrators parents teachers staff and high school students to understand how they navigate the terrain of Western pedagogy while attempting to retain and preserve Hmong knowledge systems Exploring a range of school experiences Ngo traverses students challenges in balancing school with family life and the everyday cultural racism encountered in the classroom as well as grassroots efforts to preserve culture including the establishment of a Hmong Cultural Club Highlighting these experiences and voices Ngo provides a nuanced understanding of the challenges Hmong Americans face within an assimilationist society while contesting the dominant anti immigrant narratives of refugee suffering and poverty Through these practices of re storytelling resurgence and refusal she underscores the agency of the Hmong American community illuminating how the critical consciousness fostered by re membering serves as a powerful tool in confronting white hegemonic ideologies in education Retail e book files for this title are screen reader friendly *Beyond Stereotypes* ,2010-01-01 In an era of ever increasing anti immigrant sentiment and in the face of the worst economic recession since the great depression this book presents a timely compassionate and often moving glimpse into the lives of second generation children of immigrants in urban schools The editors and distinguished immigration scholars researchers and educators in this book provide compelling research and data that focuses on the effects of ethnic stereotyping on the educational outcomes of youth whose roots span the globe from Puerto Rico to Japan and from Mexico to India as they struggle to construct identities and make a place for themselves in these United States These young people mostly born in America and attending American schools must never the less carry the burden of the stereotypes imposed upon their parents and ethnic groups How they manage to navigate an often biased and unjust system circumvent roadblocks and recreate themselves as bicultural or hybrid American citizens makes for a story of courage resiliency and transformation that restores hope in the fulfillment of the American dream and lends credence to the Emma Lazarus quote inscribed on the mother of exiles statue that graces the New York skyline Send these the homeless tempest tost to me I lift my lamp beside the golden door Additionally the authors present sane and knowledgeable solutions for supporting the education and emotional psychological social growth of these young people in our schools our classrooms and our lives **Critical Feminism and Critical Education** Jennifer De Saxe,2016-03-31 Challenging the current state of public education and teacher preparation this book argues for a re imagination of teacher education through a critical feminist and critical education perspective Offering a rich discussion of the promise and pedagogy of self reflexivity and testimonio which emerges from critical feminism this book brings together theory and practice in critical feminism critical education and testimonio to serve as a platform in which to reconceptualize the philosophy of traditional teacher education arguing that too many programs prepare teachers who often preserve rather than challenge the status quo **Resisting Asian American**

Invisibility Stacey J. Lee, 2022 Resisting Asian American Invisibility highlights one group's struggle for educational justice. Based on in-depth ethnographic research in formal and informal educational spaces, this book argues that Hmong American youth are rendered invisible by dominant racial discourses and current educational policies and practices. The book illustrates the way that Hmong American students are erased by the Black and White racial paradigm and the Asian American pan-ethnic category that perpetuates the model minority stereotype. Furthermore, Lee and a team of Southeast Asian American graduate student researchers explore how current educational policies around English learners marginalize Hmong youth. Far from being passive or silent victims, Hmong American communities actively resist their invisibility through various forms of educational advocacy and community-based education. In the tradition of critical ethnography, the author and her research team also look at what these individual and local stories expose about larger social forces, norms, and institutions.

Book Features: Focuses on a Southeast Asian American group that has gotten little attention in education literature. Highlights the unique histories and educational experiences, concerns, and challenges facing Hmong American students in a Midwest city. Examines both school and community-based educational spaces. Draws on research conducted as a follow-up study to the author's book *Up Against Whiteness: Race, School, and Immigrant Youth*. **Bounding Greed** René O. Guillaume, 2023-03-01 Building on the work of Guillaume (2021), the collection of autoethnographies and testimonios in this book highlight positive coping mechanisms, strategies, and healthy boundaries that early, middle, and late career Faculty of Color at comprehensive universities have deployed to negotiate home and work. As beautifully stated by Aerial A. Ashlee, whose story you will find in chapter two: "It is not a formula, a blueprint to copy, or a recipe to repeat; however, we hope that the stories about relying on faith, family, mentors, culture, and community presented in the following chapters will support Faculty of Color in their own well-being and work-life integration efforts. Certainly, work-life balance or integration is not the solution to deeply entrenched systemic issues in higher education; however, research in the area of work-life balance integration has affirmed the need for postsecondary institutions to place significant importance on the topic of work-life in particular, the need for increased support at both the department and institutional levels." (Denson et al., 2018). Thus, it is also our hope that this book will serve as a resource for educational leaders in the area of faculty development, as well as academic administrators whose role is to recruit, retain, and evaluate Faculty of Color at comprehensive universities. Youth Cultures, Language, and Literacy Stanton Wortham, 2011-03-15 Drawing upon international research, *Review of Research in Education*, Volume 35 examines the interplay between youth cultures and educational practices. Although the articles describe youth practices across a range of settings, a central theme is how gender, class, race, and national identity mediate both adult perceptions of youth and youths' experiences of schooling. When Middle-Class Parents Choose Urban Schools Linn Posey-Maddox, 2024-05-31 In recent decades, a growing number of middle-class parents have considered sending their children to, and often end up becoming active in, urban public schools. Their presence can bring long-needed material

resources to such schools but as Linn Posey Maddox shows in this study it can also introduce new class and race tensions and even exacerbate inequalities Sensitively navigating the pros and cons of middle class transformation When Middle Class Parents Choose Urban Schools asks whether it is possible for our urban public schools to have both financial security and equitable diversity Drawing on in depth research at an urban elementary school Posey Maddox examines parents efforts to support the school through their outreach marketing and volunteerism She shows that when middle class parents engage in urban school communities they can bring a host of positive benefits including new educational opportunities and greater diversity But their involvement can also unintentionally marginalize less affluent parents and diminish low income students access to the improving schools In response Posey Maddox argues that school reform efforts which usually equate improvement with rising test scores and increased enrollment need to have more equity focused policies in place to ensure that low income families also benefit from and participate in school change

Navigating Model Minority Stereotypes Rupam Saran, 2015-08-11 Though Asian Indians are typically thought of as a model minority not much is known about the school experiences of their children Positive stereotyping of these immigrants and their children often masks educational needs and issues creates class divides within the Indian American community and triggers stress for many Asian Indian students This volume examines second generation America born and 1.5 generation foreign born Asian Indians as they try to balance peer culture home life and academics It explores how through the acculturation process these children either take advantage of this positive stereotype or refute their stereotyped ethnic image and move to downward mobility Focusing on migrant experiences of the Indian diasporas in the United States this volume brings attention to highly motivated Asian Indian students who are overlooked because of their cultural dispositions and outlooks on schooling and those students who are more likely to underachieve It highlights the assimilation of Asian Indian students in mainstream society and their understandings of Americanization social inequality diversity and multiculturalism
