

# Oracle UPK 11 Development

Oracle User Productivity Kit (UPK) is a software application used for developing training material. It excels at the rapid creation of simulations for software applications, but can also be used for creating printed documents such as user procedures and job aids. UPK version 11 pushes UPK's capabilities even further, providing the ability to create user assessment tests, and to facilitate application testing.

UPK makes the creation of simple training material both quick and easy, especially through UPK 11's new Record It! Wizard. However, producing high-quality, fully-functional training simulations and performance support documents requires skill, and a thorough knowledge of the many capabilities of UPK and how to use them.

This book provides UPK authors with a guided approach to UPK's capabilities, and shows how to create high-quality, re-purposable training material to which application users will want to refer again and again. It also provides UPK administrators and power users with details of how to customize UPK's built-in delivery formats to meet an individual project's or client's requirements.

This book will show you how to:

- Record simulations via the Developer or the Record It! Wizard
- Enhance recordings by providing alternative actions and paths, decision frames, explanation frames, and custom text
- Take your simulations beyond mere mouseclicks and keypresses by including conceptual information, glossaries, and role-filtering
- Create questions and assessments to test your users' knowledge
- Use UPK's Test It! mode and test document outputs to facilitate application testing
- Organize your recordings into a functional library for authors, and a publishable outline for users
- Publish your training material to multiple output formats, and customize your recording for each of these
- Integrate your UPK output into training presentations, web sites, embedded help systems and Learning Management Systems
- Customize both UPK's templates and its output formats to meet your individual requirements

## **Upk Developer Manual:**

*Oracle User Productivity Kit 3.5* Dirk Manuel, 2009-09-29 Build high quality training simulations using Oracle UPK 3.5 using this book and eBook      **Computer Graphics Research Project** United States Military Academy. Instruction Support Division, 1974 The document represents one of a trilogy of manuals designed to outline the scope of GCS in a form which may be readily assimilated by the user This particular manual is intended for individuals who are already familiar with GCS but require instructions on the use of specific options and or facilities Each GCS user level subroutine is covered along with all of the available USET UPSET options for that subroutine There is a separate chapter which discusses the important concepts supported by each USET and UPSET option The manual is intended to be a definite treatise on all of the capabilities and facilities available with GCS For easy reference the subroutines are presented in alphabetical order within one chapter The chapter also contains an index table at the beginning that further facilitates a quick reference option Each example presented is intended to illustrate specific characteristics about functioning of a particular subroutine or option It is impossible because of the inherent flexibility of GCS to describe all of the possible effects which can be obtained by the interaction of various options Users are encouraged to use their imagination and experiment Modified author abstract

**Oracle UPK 11 Development** Dirk Manuel, 2013-03-04 Oracle UPK 11 Development provides a guided approach to building high quality repurposable training simulations and documentation by using Oracle's User Productivity Kit version 11 Extensively illustrated and with easy to follow steps the book covers all of UPK's functionality from initial recording through editing and enhancing simulations to final publishing Using real world examples and supported by hints and tips from the author's extensive experience of UPK the book is essential reading for new and experienced UPK developers alike
