Helming, 2016-02-04 *Sinoglossia* Andrea Bachner, Howard Chiang, Yu-lin Lee, 2023-10-12 Sinoglossia places the terms of embodiment mediality and translation at the center of analytical inquiry into Chinese and Sinophone cultures Converging in the rubric of Sinoglossia the chapters in this volume introduce a theory defined by cultural formations not overdetermined by Sinitic linguistic ties The concept of Sinoglossia combines a heteroglossic and a heterotopian approach to the critical study of mediated discourses of China and Chineseness From the history of physical examinations and queer subalternity to the cinematic inscription of Chineseness as landscape and from Sinopop to the translational writings of Eileen Chang and Syaman Rapongan this book argues for a visible conceptualization of cultural objects conditions and contexts that draws

attention to an array of polyphonic multi discursive and multilingual articulations In this new horizon of understanding place or topos necessarily constitutes the possibility of friction and source of innovation Sinoglossia opens new possibilities for critical studies of China Chineseness and Chinese cultures Bringing together pathbreaking scholarship from diverse perspectives and highlighting multiplicity and heterogeneity on a range of topics this volume is a vital addition to a range of fields Karen L Thornber Harvard University Vitally centering and theorizing processes of embodiment mediality and translation this timely and rich volume simultaneously reflective speculative comparative and historically informed convincingly articulates Sinoglossia as a flexible heterogeneous approach to intercultural phenomena tenuously identified as Chinese or Sinophone Brian Bernards University of Southern California
