Time S Potential Power Petitions 139:

Reclaiming the Petition Clause Ronald J. Krotoszynski, 2012-04-24 Since the 2004 presidential campaign when the Bush presidential advance team prevented anyone who seemed unsympathetic to their candidate from attending his ostensibly public appearances it has become commonplace for law enforcement officers and political event sponsors to classify ordinary expressions of dissent as security threats and to try to keep officeholders as far removed from possible protest as they can Thus without formally limiting free speech the government places arbitrary restrictions on how when and where such speech may occur **Liquor and the Liberal State** Dan Malleck, 2022-05-01 Cultural pastime profitable industry or harmful influence on the nation Liquor was a tricky issue for municipal provincial and federal governments after Confederation Liquor and the Liberal State traces how the Ontario provincial government's takeover of liquor regulation in the late nineteenth and early twentieth centuries involved both discrete local politics and expansive constitutional questions Dan Malleck explores how notions of individual freedom equality and property rights were debated challenged and modified in response to a vocal prohibitionist movement and equally vocal liquor industry While the liquor licensing regime helped build a vast patronage base for the governing Liberal Party some believed it exceeded the constitutional authority of the province The drink question became as political as it was moral a key issue in the establishment of judicial definitions of provincial and federal rights and ultimately in the crafting of the modern state This lively and meticulous work demonstrates the challenges governments faced when dealing with the seemingly simple but tremendously complicated alcoholic beverage

Patterson, 2022 Examines relations between centre and localities in seventeenth century England by looking at early Stuart

government through the lens of provincial towns This book investigates relations between centre and localities in seventeenth century England by looking at early Stuart government through the lens of provincial towns Focusing particularly on incorporated boroughs it emphasises the distinctive circumstances that shaped governance in provincial towns and the ways towns contributed to the state Royal charters of incorporation legally defined patterns of self government and local liberties in corporate boroughs but they also created a powerful bond to the crown The book argues that a dynamic tension between local autonomy and connection to the centre drove relations between towns and the crown in this period as borough governments actively sought strong ties with central authority while also attempting to preserve their chartered liberties It also argues that the 1620s and 1630s ushered in new patterns in the crown s relations with incorporated boroughs as Charles I s regime hardened policies towards urban localities Based on extensive original research in both central government records and the archives of a wide range of provincial towns the book covers critical aspects of interaction between towns and the crown including incorporation and charters governance and political order social regulation trade financial and military exactions and religion

The Electrical Journal , 1897 **Orphans of the East** Constantin Parvulescu, 2015-06-08 An analysis of films produced in post World War II Eastern Europe featuring the trope of the orphan and the issues these characters addressed Unlike the benevolent orphan found in Charlie Chaplin s *The Kid* or the sentimentalized figure of Little Orphan Annie the orphan in postwar Eastern European cinema takes on a more politically fraught role embodying the tensions of individuals struggling to recover from war and grappling with an unknown future under Soviet rule By exploring films produced in postwar Hungary the German Democratic Republic Czechoslovakia Romania and Poland Constantin Parvulescu traces the way in which cinema envisioned and debated the condition of the post World War II subject and the new man of Soviet style communism In these films the orphan becomes a cinematic trope that interrogates socialist visions of ideological institutionalization and re education and stands as a silent critic of the system s shortcomings or as a resilient spirit who has resisted capture by the political apparatus of the new state By using the trope of an orphan Constantin Parvulescu demonstrates how films made in countries such as Hungary East Germany Poland Czechoslovakia and Romania reflected on the specific problems affecting Eastern Europe after 1945 such as the loss of population economic backwardness the legacy of the Holocaust while engaging

in wider debates especially the superiority of socialism over capitalism Economically and elegantly written it demonstrates that cinema produced in the periphery can be central to our understanding of films as ideological tools This is one of the best books on Eastern European cinema ever written Ewa Mazierska University of Central Lancashire Groundbreaking The author's comparative transnational perspective in chapters devoted to close textual analyses of each narrative demonstrates the value of reading film as a primary source for understanding the relationships among state power intergenerational trauma and revolutionary subjectivity Parvulescu's highly original portrayal of a landscape of parentless children evokes the trauma of war and the specificity of the socialist experiment in the former Eastern Bloc Catherine Portuges University of Massachusetts Amherst Parvulescu has taken a highly innovative approach to socialist and post socialist cinema in the region and one that is vividly illustrated by a superb selection of films **Studies in European Cinema**
