Tarot for Troubled Times Shaheen Miro, Theresa Reed, 2019 Each of us has a shadow that darkens our inner and outer lives In Tarot for Troubled Times Shaheen Miro and Theresa Reed show us how working with the shadow facing it directly leaning into it rather than away releases power that can free ourselves from negative mental habits and destructive emotions to find healing ourselves and others Tarot as the authors show offers a rich and subtle path for this profound transformation Through this book you will discover a different approach to tarot life and self empowerment **Title List of Documents**

Made Publicly Available U.S. Nuclear Regulatory Commission, 1982 **Liquor and the Liberal State** Dan Malleck, 2022-05-01 Cultural pastime profitable industry or harmful influence on the nation Liquor was a tricky issue for municipal provincial and federal governments after Confederation Liquor and the Liberal State traces how the Ontario provincial government s takeover of liquor regulation in the late nineteenth and early twentieth centuries involved both discrete local politics and expansive constitutional questions Dan Malleck explores how notions of individual freedom equality and property rights were debated challenged and modified in response to a vocal prohibitionist movement and equally vocal liquor industry While the liquor licensing regime helped build a vast patronage base for the governing Liberal Party some believed it exceeded the constitutional authority of the province The drink question became as political as it was moral a key issue in the establishment of judicial definitions of provincial and federal rights and ultimately in the crafting of the modern state This lively and meticulous work demonstrates the challenges governments faced when dealing with the seemingly simple but tremendously complicated alcoholic beverage **FCC Record** United States. Federal Communications Commission, 2015 **Hard Times** Barbara Kellerman, 2014-10-15 A highly perceptive analysis of the crisis of leadership in 21st century America written in an exhilaratingly readable style Archie Brown Oxford University author of The Myth of the Strong Leader Selected by Choice as an Outstanding Academic Book Leadership has never played a more prominent role in America s national discourse and yet our opinions of leaders are at all time lows Private sector leaders are widely seen as greedy to the point of being corrupt Public sector leaders are viewed as incompetent to the point of being inept And levels of trust in government have plummeted As the title of this book conveys leaders in America are experiencing hard times Barbara Kellerman argues that we focus on leaders and even on followers while ignoring an essential element of leadership context This book is a corrective It enables leaders to track the terrain that they must navigate in order to create change Rather than a handy dandy manual on what to do and how to do it Hard Times is structured as a checklist Twenty four brief sections cover key aspects of the American landscape They trace evolutions and revolutions that have revised our norms transformed our populations and institutions and shifted our culture Kellerman s crash course on context reveals how significant it is to leadership Clearer still is the fact that leadership is more difficult than it has ever been It is context that explains why leadership is so fraught with frustration And it is context that makes evident why leadership will be better

exercised if it is better understood Calling out patterns that emerge from the checklist Kellerman challenges leaders to do better This fascinating read will change the way that all of us think about leadership while compelling us to consider what it means for our future Finally a book that explains why leadership is so hard thought provoking examples taken from business and government alike Sydney Finkelstein Tuck School of Business author of *Why Smart Executives Fail* Competition Policy and the Control of Buyer Power Peter C. Carstensen, 2017-09-29 This book provides a comprehensive overview of the economic and competition policy issues that buyer power creates Drawing on economic analysis and cases from around the world it explains why conventional seller side standards and analyses do not provide an adequate framework for responding to the problems that buyer power can create Based on evidence that abuse of buyer power is a serious problem for the competitive process the book evaluates the potential for competition law to deal directly with the problems of abuse either through conventional competition law or special rules aimed at abusive conduct The author also examines controls over buying groups and mergers as potentially more useful responses to risks created by undue buyer power *The Irish Law Times and Solicitors' Journal* , 1991 *Ecophysiology of Vascular Halophytes* Irwin A. Ungar, 2023-06-14 Ecophysiology of Vascular Halophytes provides a useful update to existing literature describing the ecophysiological responses of vascular halophytes to environmental stresses present in saline habitats The success of species growing in these extreme environments is related to a number of adaptations including the timing of phenological events phenotypic plasticity and genetic selection for specific ecophysiological responses at different stages of development Factors discussed that influence the growth and distribution of halophytes include seed germination salinity stress salt stimulation flooding ion content nitrogen plant water status growth regulators photosynthesis and genecology The book also discusses the effects of both interspecific and intraspecific competition on the growth and survival of halophytes Researchers and students of stress ecology as well as agricultural research organizations will find a tremendous store of information in this volume

Walker, 2020-09-17 Excellent balance of case excerpts and author explanation highly appropriate for undergraduate students Dr Wendy Brame Briar Cliff University Political factors influence judicial decisions Arguments and input from lawyers and interest groups the ebb and flow of public opinion and especially the ideological and behavioral inclinations of the justices all combine to shape the development of constitutional doctrine Drawing on political science as much as from legal studies *Constitutional Law for a Changing America A Short Course* helps students realize that Supreme Court cases are more than just legal names and citations With meticulous revising the authors streamline material while accounting for recent landmark cases and new scholarship Ideal for a one semester course the Eighth Edition of *A Short Course* offers all the hallmarks of the Rights and Powers volumes in a more condensed format Students and instructors benefit from the online Con Law Resource Center which houses the supplemental case archive links to CQ Press reference materials a moot court simulation instructor
