Pestonjee,2021-01-28 Stress is defined as a feeling experienced when a person perceives that demands exceed the personal and social resources the individual is able to mobilize It can occur due to environmental issues such as a looming work deadline or psychological for example persistent worry about familial problems While the acute response to life threatening circumstances can be life saving

research reveals that the body's stress response is largely similar when it reacts to less threatening but chronically present stressors such as work overload deadline pressures and family conflicts. It is proffered that chronic activation of stress response in the body can lead to several pathological changes such as elevated blood pressure clogging of blood vessels anxiety depression and addiction. Organizational Stress Around the World Research and Practice aims to present a sound theoretical and empirical basis for understanding the evolving and changing nature of stress in contemporary organizations. It presents research that expands theory and practice by addressing real world issues across cultures and by providing multiple perspectives on organizational stress and research relevant to different occupational settings and cultures. Personal occupational organizational and societal issues relevant to stress identification along with management techniques approach to confront stress and its associated problems at individual and organizational level are also explored. It will be of value to researchers academics practitioners and students interested in stress management research.

True Storytelling Jens Larsen, David M. Boje, Lena Bruun, 2020-09-23. True Storytelling is a new method of studying planning facilitating ensuring implementing and evaluating ethical and sustainable changes in companies organizations and societies. True Storytelling is both a method with seven principles and a mindset to help managers and researchers to work with change. True Storytelling stresses that we need to balance the resources of the Earth our wellbeing and the economy when we are dealing with change. It is not only a book about how to prevent climate change it is also a book about how we can navigate through crisis create less stress and achieve better life in organizations and in society as a whole. You will learn how to create innovative start ups with a purpose and fund money for sustainable projects and good ideas. The book combines practical cases interviews with managers and CEOs theory and philosophy to define the method and to teach the Seven True Storytelling Principles. 1 You yourself must be true and prepare the energy and effort for a sustainable future. 2 True storytelling makes spaces that respect the stories already there. 3 You must create stories with a clear plot creating direction and helping people prioritize. 4 You must have timing. 5 You must be able to help stories on their way and be open to

experiment 6 You must consider staging including scenography and artefacts 7 You must reflect on the stories and how they create value This book is a guide to implementing these core principles to boost leadership practices create a storytelling culture and staff buy in The method is also useful as an analytical tool for organizations managers and consultants in order to prepare plan and execute the implementation of strategies It is valuable reading for researchers and students at master level as well as leaders and consultants in charge of ethical and sustainable changes *Orthodox Christian Identity in Western Europe* Sebastian Rimestad,2020-11-19 This book analyses the discourses of Orthodox Christianity in Western Europe to demonstrate the emerging discrepancies between the mother Church in the East and its newer Western congregations Showing the genesis and development of these discourses over the twentieth century it examines the challenges the Orthodox Church is facing in the modern world Organised along four different discursive fields the book uses these fields to analyse the Orthodox Church in Western Europe during the twentieth century It explores pastoral ecclesiological institutional and ecumenical discourses in order to present a holistic view of how the Church views itself and how it seeks to interact with other denominations Taken together these four fields reveal a discursive vitality outside of the traditionally Orthodox societies that is however only partly reabsorbed by the church hierarchs in core Orthodox regions like Southeast Europe and Russia The Orthodox Church is a complex and multi faceted global reality Therefore this book will be a vital guide to scholars studying the Orthodox Church ecumenism and religion in Europe as well as those working in religious studies sociology of religion and theology more generally **How to Deal with Refugees?** Gerhard Besier,Katarzyna Stoklosa,2018 2015 was without any doubt the year of migrations Over the subsequent two years we have certainly seen the migration flows reduce but it was never going to be possible to halt them altogether From the outset of this phenomenon numerous academics and researchers have dedicated themselves to the topic They analyse the causes the course of the migration flows parallels and impacts as well as possible scenarios of the migration movement A wide reaching debate has evolved on the topic of migration to which the authors in this anthology were also keen to contribute conflict regulations attempts In this publication historians political scientists philosophers sociologists geographers human geographers economists literary scientists legal scholars theologians and psychiatrists from a range of European and Non European countries have each contributed from their individual standpoints **Gendered Paths into STEM.
