Quality Management Nguyen Thi Kim Oanh, 2012-07-05 The steady growth in the number of vehicles on the road heavy reliance on coal use of dirty fuels for residential combustion and extensive open burning are some of the major factors leading to the progressive deterioration of air quality in developing countries in Asia And despite efforts to establish and implement air quality measurement systems the development of infrastructure environmental technology and management practices continues to lag behind the rate of emission increase Based on ten years of coordinated research Integrated Air Quality Management Asian Case Studies discusses technical and policy tools for the integrated air quality management of developing countries in Asia The book begins with an overview of major issues of air quality management practices in developing Asia and potential approaches to reduce pollution including opportunities for integration of air quality improvement and climate migration strategies It covers the methodology and results of fine particulate matter monitoring using traditional filter based and satellite monitoring techniques It examines the applications of a 3D dispersion modeling tool for urban and regional air quality management focusing on surface ozone fine particulate matter and acid deposition The final chapters discuss innovative control technologies for gaseous air pollutants and illustrate the integrated air quality management in developing Asia through case studies for target source categories including agricultural residue field burning vehicle emissions brick kilns and industrial VOC emission Illustrated with case studies this book presents an integrated air quality management methodology that employs technical and policy tools to achieve air quality goals It includes technical information and policy recommendations based on the outcomes of several multi year air quality research programs coordinated by the Asian Institute of Technology The text combines fundamental information and advanced knowledge useful to large audiences dealing with subjects of integrated air quality management Natef Standards Lab Manual - Intro Jack Erjavec, 2004-06 The Carbon Buster's Home Energy Handbook Godo Stoyke, 2006-11-01 Most people are unaware that environmental problems such as climate change can be easily avoided at a profit through the intelligent application of appropriate technology The Carbon Buster's Home Energy Handbook describes how to achieve this goal in the residential field The first book in North America to provide a detailed carbon accounting of a family's carbon emissions and how to reduce them it systematically analyzes energy costs and evaluates which measures yield the highest returns for the environment and the pocketbook It provides answers to questions such as Which measure is more effective putting solar panels on your roof or buying a hybrid car Where do I need to invest first in high efficiency shower heads or solar tubes Is a 500 fridge that uses 800 kWh of power per year a good buy The book allows individuals to quickly and accurately assess which products are a good deal and which aren't It systematically analyzes residential carbon emissions and energy costs

and prioritizes solutions based on highest carbon reductions and monetary returns yielding results that are often surprising. The book enables readers to dramatically reduce their carbon emissions far below the levels targeted under the Kyoto Protocol. At the same time, readers implementing the recommendations will save an average of 15 000 in energy costs over the next five years.
