Alternative Diesel Fuels Daniel J Holt, 2004-01-01 A key topic of many technical discussions has been the development of alternative fuels to power the compression ignition engine. Reasons for this include the desire to reduce the dependency on petroleum based fuel and at the same time to reduce the particulate matter PM and NOx emissions. Also there has been interest generated in the diesel engine because of the reduction in greenhouse gases that has been proposed during the 2008-2012 time frame in Europe and the regulations that affect diesel engines in the United States.

The Business of Speed David N. Lucsko, 2008-11-03 Lucsko offers a rich and heretofore untold account of the culture and technology of the high performance automotive aftermarket in the United States offering a fresh perspective on the history of the automobile in America.
