A Successful Transformation? Petr Pavlínek, 2008-04-30 I started researching the dramatic changes in the automobile industry of Central and East European countries in the late 1990s My interest grew out of my previous work on the post socialist transformation foreign direct investment and regional economic development While researching the economic and regional development effects of foreign direct investment I was increasingly drawn to the automobile industry because of the speed and depth of its transformation through foreign direct investment and its potentially very significant economic and regional development effects In addition to working on the Central and East European automobile industry as a whole I became interested in detailed case studies of enterprise restructuring as I wanted to understand its complex nature and the role of different actors in the restructuring of the automobile industry In order to achieve this goal I visited dozens of automotive enterprises especially in the Czech Republic Czechia to conduct in depth interviews with key informants I have also interviewed key informants at ministries automotive associations and academia and collected various secondary data and information This book is the outcome of this work In this endeavor I have benefited from various support The University Committee on Research and Creative Activity at the University of Nebraska at Omaha funded three field work sessions in Czechia to conduct interviews and research for this book

market since 2008 and the story of how Chinese auto makers developed is the story of the Chinese economy in microcosm. It focuses on China's systemically important automobile sector; this book reveals how local institutions have moderated structural changes at national and global levels and consequently generated significant organizational diversity in the production sphere. This book begins with the intriguing observation that individual Chinese car makers have been evolving in different directions despite a shared context: what factors led to these diverse choices and positioning? It is the central aim of this book to explain the variety of institutional forms used by Chinese car manufacturers in navigating the market transition and answering the challenges posed by globalization.

Location Behaviour and Relationship Stability in International Business Networks Bart Kamp, 2006-12-05 This new book investigates how the relationships of international business networks (one buyer multiple suppliers) develop over time, looking at the geographical angle as well as an actor composition point of view. Bart Kamp presents a framework that reveals what business-to-business (b2b) factors explain buyer-supplier co-location patterns, making it possible to predict the geographical behaviour of suppliers and also assesses whether longevity is truly the deep-rooted feature of international b2b network relationships that it is often claimed to be.

Structural Crashworthiness and Failure N. Jones, T. Wierzbicki, 1993-03-26 This book contains twelve invited lectures from the Third International Symposium on Structural Crashworthiness. Particular emphasis is given to the failure predictions for ductile metal structures under large dynamic loads and to the behaviour of composite and cellular structures.

International Technical Conference on Experimental Safety Vehicles. Thirteenth. Proceedings. Volume I., 1993 **Social and Environmental Dimensions of Organizations and Supply Chains** Marcus Brandenburg, Gerd J. Hahn, Tobias Rebs, 2017-07-13 This book focuses on environmental and social factors in international supply chains and industry networks. It explores whether socially responsible and environmentally conscious operations are complementary or conflictive to economic targets. The book elaborates on innovative approaches to manage the economic, ecological, and social performance in supply networks from different perspectives. In addition, it links sustainability to operational processes and illustrates specific application contexts. Moreover, it covers the social dimension of sustainability. The rise of sustainability in management forces enterprises to revisit the concept of profitability that drives their operations. Social standards and ecological targets represent critical factors that challenge industry networks. The interplay of these goals requires new insights from scientific research and managerial practice. New approaches and systems are needed to minimize environmental and social harms and to promote sustainability.

Automotive FDI in Emerging Europe A. J. Jacobs, 2017-06-19 This book examines the dramatic increase in automotive assembly plants in the former Socialist Central European CE nations of Czechia East Germany Hungary Poland and Slovakia from 1989 onwards Enticed by relatively lower wage labour and significant government incentives the world s largest automakers have launched more than 20 passenger car assembly complexes in CE nations with production accelerating dramatically since 2001 As a result the annual passenger car production in Western Europe declined by more than 20% between 2001 and 2015 and alternatively in the CEE it increased by nearly 170% during this period Drawing on case studies of 25 current and former foreign run assembly plants the author presents a rare historical account of automotive foreign assembly plants in the CE following this dramatic geographic shift This book will expand the knowledge of policy makers in Europe in relation to their pursuits of FDI and will be of great interest to scholars and students of business economic history political science and development

Vehicle Compatibility in Automotive Crashes Stanley H Backaitis, 2005-03-29 For years reducing the number of traffic related fatalities and injuries has been a major problem throughout the world Today it has gained much more momentum in view of rapidly increasing SUV van and light truck populations relative to the number of passenger cars and due to significant improvements in technologies that facilitate a better understanding of the interaction dynamics among widely differing size vehicles Unless disparities in crashworthiness among vehicles of different masses sizes and structural characteristics in mixed crash environments are successfully taken into account the challenge toward improved vehicle safety will continue This two part compendium provides the most comprehensive information available on the entire spectrum of vehicle crash compatibility The first part presents oral comments captured from the 2003 SAE World Congress panel discussion on compatibility The panel of leading experts representing industry academia and government provides a rough framework and a broad range of views on current and emerging developments in compatibility research The second part of this compendium features 44 best technical papers from SAE International and the International Technical Conference on the Enhanced Safety of Vehicles published from the early 1970s through 2004 Readers will get a feel for the direction passenger car and heavy vehicle manufacturers research institutions infrastructure suppliers insurers and governments are taking to reduce the number of traffic fatalities and injuries

The Automotive Industry and European Integration

A. J. Jacobs, 2019-08-07 This book chronicles the divergent growth trends in car production in Belgium and Spain It delves into how European integration high wages and the demise of GM and Ford led to plant closings in Belgium Next it investigates how lower wages and the expansion strategies of Western European automakers stimulated expansion in the Spanish auto industry Finally it offers three alternate scenarios regarding how further EU expansion and Brexit may potentially reshape the geographic footprint of European car production over the next ten years In sum this book utilizes history to help expand the knowledge of scholars and policymakers regarding how European integration and Brexit may

impact future auto industry investment for all EU nations A methodology for planning sustainable supply chain initiatives
Kucht Campos, Juliana, 2016-11-18 This publication presents a methodology for planning sustainable supply chain initiatives consisting of three scopes each with its appropriate mechanism and background theory The first one Acting In structures organizational practices in a Framework for Managing Sustainable Supply Chain Practices The second scope Acting Out compares practices from 32 recognized sustainability leaders from five different industries through a Benchmarks Practices Bank The third scope Acting Beyond supports defining and managing a portfolio of sustainable supply chain practices through a Practices Portfolio Planning Matrix which provides a list of opportunities for the exchange of knowledge between Germany and Brazil The methodology significantly supports supply chain decision makers in planning initiatives and visualizing collaboration opportunities within a firm industry and shared value chain perspective As companies become more global challenges also become greater thus a more systematic and holistic approach can lead the way for developing more innovative solutions In der folgenden Doktorarbeit wird eine Methodologie zur Planung von Nachhaltigkeitsinitiativen im Bereich Supply Chain entwickelt die aus drei Haupthandlungsfeldern besteht und für welche jeweils der theoretische Hintergrund sowie geeignete Mechanismen aufgezeigt werden Der erste Bereich das sog Acting In strukturiert organisatorische Tätigkeiten und integriert diese in einen Rahmen dem Framework for Managing Sustainable Supply Chain Practices Der zweite Bereich Acting Out vergleicht verschiedene Verfahren von 32 anerkannten im Bereich Nachhaltigkeit führenden Unternehmen mit Hilfe der Datenbank Benchmarks Practices Bank Acting Beyond der dritte Bereich hilft dabei ein Portfolio mit nachhaltigen Maßnahmen im Supply Chain Bereich zu definieren Hierfür wird die Practices Portfolio Planning Matrix eingeführt welche gleichzeitig interessante Möglichkeiten zum Wissensaustausch zwischen Deutschland und Brasilien aufzeigt Die erarbeitete Methodik ist sowohl für die Forschung als auch für die Anwender im Supply Chain Bereich von großer Bedeutung Die hier entwickelten Mechanismen unterstützen die Entscheider in den Unternehmen bei der Planung von Nachhaltigkeitsinitiativen im Supply Chain Bereich und verdeutlichen Kooperationsmöglichkeiten auf verschiedenen Ebenen innerbetrieblich auf derselben Wertschöpfungsstufe und über die gesamte Wertschöpfungskette hinweg Da die Unternehmen immer globaler agieren werden die Herausforderungen größer Daher kann eine systematischere ganzheitlichere Herangehensweise ein Ansatz sein wenn es um die Entwicklung von innovativen Lösungen geht
