(pages 569–570)

What were the goals of the American and British alliance?

In late December 1941, a few weeks after Pearl Harbor, President Roosevelt met with British Prime Minister Winston Churchill. They planned their war strategy. They agreed that the first thing to do was to defeat Hitler's Germany. Roosevelt and Churchill began a lasting friendship and a strong alliance between America and Britain.

After war was declared, German U-boats increased attacks on American ships in the Atlantic. Many American ships were sunk. The

Allies organized convoys, or groups, for shared protection. Warships and airplanes escorted the convoys. They used sonar and radar to find and destroy many German submarines.

The United States also started building ships at a rapid pace. Soon there were more Allied cargo ships, or Liberty ships, being made than being sunk. By mid-1943, the tide of the Battle of the Atlantic had turned in favor of the Allies.

Operation 'Torch' North Africa Jean Paul Pallud, 2019-06-30 When the western Allies decided to launch a second front in North Africa they carefully considered the anti British feeling left in France by the ill advised attack by the Royal Navy on the French Fleet at

Mers el K bir in July 1940 Consequently the operation was given an American rather than a British complexion General Eisenhower was chosen to lead a mostly American force into battle and the major Royal Navy contribution was kept as inconspicuous as possible This operation marked the first time that American troops fought against German forces during the Second World War They had a rough baptism of fire in southern Tunisia in February 1943 training equipment and leadership failed in many instances to meet the requirements of the battlefield but the US Army was quick to learn and revise army doctrines particularly with respect to the use of armor The successful campaign created thousands of seasoned soldiers of all ranks whose experience would prove decisive in subsequent campaigns The next test was only two months away the invasion of Sicily In addition Operation Torch brought the French army back into the war Most important of all the Allies had seized the initiative in the West

Atlantic Wars Geoffrey Plank,2020-05-21 In a sweeping account Atlantic Wars explores how warfare shaped the experiences of the peoples living in the watershed of the Atlantic Ocean between the late Middle Ages and the Age of Revolution At the beginning of that period combat within Europe secured for the early colonial powers the resources and

political stability they needed to venture across the sea By the early nineteenth century descendants of the Europeans had achieved military supremacy on land but revolutionaries had challenged the norms of Atlantic warfare Nearly everywhere they went imperial soldiers missionaries colonial settlers and traveling merchants sought local allies and consequently they often incorporated themselves into African and indigenous North and South American diplomatic military and commercial networks The newcomers and the peoples they encountered struggled to understand each other find common interests and exploit the opportunities that arose with the expansion of transatlantic commerce Conflicts arose as a consequence of ongoing cultural misunderstandings and differing conceptions of justice and the appropriate use of force In many theaters of combat profits could be made by exploiting political instability Indigenous and colonial communities felt vulnerable in these circumstances and many believed that they had to engage in aggressive military action or at a minimum issue dramatic threats in order to survive Examining the contours of European dominance this work emphasizes its contingent nature and geographical limitations the persistence of conflict and its inescapable impact on non combatants lives Addressing warfare at sea warfare on land and transatlantic warfare Atlantic Wars covers the Atlantic world from the Vikings in the north through the North American coastline and Caribbean to South America and Africa By incorporating the British French Spanish Dutch Portuguese Africans and indigenous Americans into one synthetic work Geoffrey Plank underscores how the formative experience of combat brought together widely separated people in a common history
