Section II covers the planning and acquisition of resources by human service organizations. Budgeting, marketing and grantwriting skills are examined. Section III details the distribution of the acquired resources through internal control, budgeting and investments. Section IV presents basic accounting techniques, fund accounting, financial reporting guidelines and financial statement analysis including the recording and reporting of organizational financial activities. New topics include fees for services, purchase of service contracting, breakeven analysis for costing services and activities, third party payments, internet resources and a glossary.
