World Bank Report On Infrastructure:

Rural Infrastructure from a World Bank Perspective Louis Y. Pouliquen, 1999 Rural infrastructure is critical to both economic and social development Its absence thwarts growth and typically the poor are those hurt the most The purpose of this paper is to serve as a basis for knowledge management on rural infrastructure In the 1970s the primary if not the unique objective of rural infrastructure lending was to get rural infrastructure built However the institutional aspects of how this infrastructure was to be built and later how it would be operated and maintained did not receive much attention Only recently has poverty alleviation through employment creation become an explicit objective of rural infrastructure investments This review tracks the poverty alleviation objective of rural infrastructure projects using three criteria 1 whether poverty was an explicit criterion in the selection of specific sub projects 2 whether poverty was addressed in the pricing of rural infrastructure services and 3 whether poverty was addressed through the creation of employment International Benchmarking of Infrastructure Performance in the Southern African Customs Union Countries [eljko Bogeti?, Johannes W. Fedderke, 2006 The paper provides a first systematic benchmarking of infrastructure performance in the Southern African Customs Union SACU countries South Africa Botswana Lesotho Namibia and Swaziland in four major sectors electricity water and sanitation information and communication technology and transportation against the relevant group of comparator countries using a new World Bank international data base with objective and perception based indicators of infrastructure performance from over 200 countries The analysis suggests important comparative gaps in all major infrastructure sectors although performance varies widely across the SACU region Performance shortfalls are particularly acute in rural areas where most of the poor live The benchmarking is envisaged as a comparative input into deeper analyses of infrastructure performance especially in the context of the ongoing scaling up efforts for example South Africa Lesotho and Botswana

Font, 2015-06-16 This book follows ten political economic histories since the 1970s showing how different forms of partnership have developed flourished or declined over the time The author's argument is supported by rich empirical material It places partnership schemes in a broader social context and provides a deep insight into the phenomenon The Routledge Handbook of Infrastructure Finance Joshua Yindenaba Abor, John Macomber, Thankom Arun, Victor Murinde, 2025-08-06 This handbook provides a comprehensive overview of infrastructure financing from a global perspective It offers an extensive examination of infrastructure financing worldwide It encompasses a wide range of subjects concerning infrastructure finance including different project types financing options and the functions performed by public and private sector entities in financing and overseeing infrastructure initiatives Given that infrastructure investment is crucial to socio economic growth and development it has become a critical policy priority for governments investors and other stakeholders around the world It is intended for a wide range of readers interested in infrastructure finance including academics researchers students policymakers and practitioners The handbook offers an in depth and interdisciplinary overview of
