World Civilizations Peter N. Stearns, 2002-02 Miseducation A. J. Angulo, 2016-04 By investigating how laws myths national aspirations and global relations have recast and at times distorted the key purposes of education this pathbreaking book sheds light on the role of ignorance in shaping ideas public opinion and policy Robert N Proctor author of *Golden Holocaust Origins of the Cigarette Catastrophe and the Case for Abolition* Historical Studies in Education *Revue d'histoire de l'éducation* *Critic and Literary World* Jeannette Leonard Gilder, Joseph Benson Gilder, 1895 **Journal of Education**, 1881 **The Hispanic American Historical Review** James Alexander Robertson, 1962 Includes Bibliographical section

Medieval Robots E. R. Truitt, 2015-04-22 A thousand years before Isaac Asimov set down his Three Laws of Robotics real and imagined automata appeared in European courts liturgies and literary texts Medieval robots took such forms as talking statues mechanical animals and silent metal guardians some served to entertain or instruct while others performed disciplinary or surveillance functions Various ascribed to artisanal genius inexplicable cosmic forces or demonic powers these marvelous fabrications raised fundamental questions about knowledge nature and divine purpose in the Middle Ages *Medieval Robots* recovers the forgotten history of fantastical aspirational and terrifying machines that captivated Europe in imagination and reality between the ninth and fourteenth centuries E R Truitt traces the different forms of self moving or self sustaining manufactured objects from their earliest appearances in the Latin West through centuries of mechanical and literary invention Chronicled in romances and song as well as histories and encyclopedias medieval automata were powerful cultural objects that probed the limits of natural philosophy illuminated and challenged definitions of life and death and epitomized the transformative and threatening potential of foreign knowledge and culture This original and wide ranging study reveals the convergence of science technology and imagination in medieval culture and demonstrates the striking similarities between medieval and modern robotic and cybernetic visions *Readers' Guide to Periodical Literature*, 1915

Sex and World Peace Valerie Hudson, Bonnie Ballif-Spanvill, Mary Capriolo, Chad Emmett, 2012-02-28 Backed up by a detailed analysis tables and color maps the authors argue that violence against women adversely affects all levels of society and ultimately the security of a nation and offer ways to heal the wounds of violence against women on both a micro and macro level Geopolitics Saul Bernard Cohen, 2009 Written by one of the world's leading political geographers this fully revised and updated textbook examines the dramatic changes wrought by ideological and economic forces unleashed by the end of the Cold War Saul Bernard Cohen considers these forces in the context of their human and physical settings and explores their geographical influence on foreign policy and international relations *Coerced and Free Migration*, 2002-04-16 This volume is an innovative history of major worldwide population movements free and forced from around 1500 to the early 20th century It explores the shifting levels of freedom under which migrants traveled and compares the experiences of migrants and their descendants who arrived under drastically different labor regimes Alison Games

Georgetown University *Readers' Guide to Periodical Literature* Anna Lorraine Guthrie,1915 An author subject index to selected general interest periodicals of reference value in libraries *Polarized Pasts* Elisabeth Niklasson,2023-01-13 When questions of belonging enter the forefront of political debates so too does heritage This volume draws critical voices from archaeology anthropology and the classics into a conversation about political uses of the past in times of radical right populism The authors show how ancient monuments and sites bygone eras and political regimes and even your genetic ancestry can become wrapped up in polarized political debates They also highlight how heritage which is often thought of as a common good can be dangerous in times of political polarization erasing nuances between us and them Together the texts pave the way for a better understanding of the political role of heritage in society *The Fractured Subject* Betty Schulz,2023-01-25 The Fractured Subject investigates the relationship of the work of Walter Benjamin and Sigmund Freud centered around the concept of the fractured subject Through a reading of Benjamin s work on sovereignty and myth Betty Schulz establishes the emergence of this fractured subject in the Baroque and links these themes to Mourning and Melancholia and two of Freud s case studies showing that melancholia and possession emerge as two responses to the baroque loss of a cosmological horizon Turning to Benjamin s work on the nineteenth century in the Arcades Project Schulz delineates the persistence of this fractured subject showing how Benjamin conceptualises its development over the course of modernity while analyzing the change of memory and experience in modernity Finally having introduced the importance of the dream in the Arcades Project and associated work Schulz examines Benjamin s dream theory establishing the ways it draws from Freud as well as Benjamin s concept of awakening as a therapeutic collective political gesture that points beyond the fractured subject **Royalists, Radicals, and les Misérables** Eric Martone,2014-10-02 The year of 1832 marked a turning point in France as the country struggled to find its way in the wake of the French Revolution Following the Revolution of 1830 Legitimists supporters of the recently ousted Bourbon dynasty s claim to the throne continued to plot against King Louis Philippe and his July Monarchy In early 1832 after failing to launch a coup in Southern France Legitimists plotted an unsuccessful uprising in the Vendée a region in Western France that had supported the royalist cause during the French Revolution The Duchesse de Berry led the rebellion in the hopes of placing her son the Bourbon heir on the French throne The revolt marked the last attempt by the Bourbons to retake the throne by force and helped solidify the end of the Bourbon dynasty During the cholera outbreak which also spread throughout France in 1832 lower income areas suffered higher losses to the disease for they were more likely to have contaminated water supplies The lower classes spread rumors that the outbreak was an elitist plot to subdue the masses and the epidemic exacerbated class tensions Meanwhile conditions in France continued to be characterized by violence during the early 1830s as Louis Philippe attempted to establish his regime s authority The most significant of these uprisings was the republican dominated June Revolution of 1832 Victor Hugo and other contemporaries perceived the barricades of June as natural extensions of the cholera epidemic or the political

continuation of a biological crisis The sad fate of the uprising however prompted republicans to regroup and develop new strategies for success As a whole then 1832 helped solidify the end of the Bourbon monarchy and class identities and was a crucial moment in the re organization and growing solidification of French republicanism that paved the way for the Revolution of 1848 This edited collection examines these three pivotal events in French history in 1832 a royal Legitimist uprising led by the Duchesse de Berry the cholera epidemic and the June Revolution featured in the climax of Hugo's novel Les Misérables within the context of the legacy of the French Revolution While the events of 1832 are significant they have been relatively ignored because scholars have been distracted by the Revolutions of 1830 and 1848 This collection is the first piece of scholarship to examine these three events in an interconnected pattern to better examine France as it transitioned from a monarchy to a republic As a result this collection will be of value to both historians and academics studying diverse subfields within French and European studies

Civilizations Felipe Fernandez-Armesto, 2001-09-14 In Civilizations Felipe Fernandez Armesto once again proves himself a brilliantly original historian capable of large minded and comprehensive works here he redefines the subject that has fascinated historians from Thucydides to Gibbon to Spengler to Fernand Braudel the nature of civilization To Fernandez Armesto a civilization is civilized in direct proportion to its distance its difference from the unmodified natural environment by its taming and warping of climate geography and ecology The same impersonal forces that put an ocean between Africa and India a river delta in Mesopotamia or a 2 000 mile long mountain range in South America have created the mold from which humanity has fashioned its own wildly differing cultures In a grand tradition that is certain to evoke comparisons to the great historical taxonomies each chapter of Civilizations connects the world of the ecologist and geographer to a panorama of cultural history In Civilizations the medieval poem Sir Gawain and the Green Knight is not merely a Christian allegory but a testament to the thousand year long deforestation of the trees that once covered 90 percent of the European mainland The Indian Ocean has served as the world's greatest trading highway for millennia not merely because of cultural imperatives but because the regular monsoon winds blow one way in the summer and the other in the winter In the words of the author Unlike previous attempts to write the comparative history of civilizations it is arranged environment by environment rather than period by period or society by society Thus seventeen distinct habitats serve as jumping off points for a series of brilliant set piece comparisons thus tundra civilizations from Ice Age Europe are linked with the Inuit of the Pacific Northwest and the Mississippi mound builders and the deforesters of eleventh century Europe are both understood as civilizations built on woodlands Here of course are the familiar riverine civilizations of Mesopotamia and China of the Indus and the Nile but also highland civilizations from the Inca to New Guinea island cultures from Minoan Crete to Polynesia to Renaissance Venice maritime civilizations of the Indian Ocean and South China Sea even the Bushmen of Southern Africa are seen through a lens provided by the desert civilizations of Chaco Canyon More here are fascinating stories brilliantly told of the voyages of Chinese admiral Chen Ho and Portuguese commodore

Vasco da Gama of the Great Khan and the Great Zimbabwe Here are Hesiod's tract on maritime trade in the early Aegean and the most up to date genetics of seed crops Erudite wide ranging a work of dazzling scholarship written with extraordinary flair Civilizations is a remarkable achievement a tour de force by a brilliant scholar Humanities ,1983

Mycenaean Civilization Bryan Feuer,2004-03-16 Classical Greeks considered the Mycenaean civilization to be the basis of their glorious and heroic heritage but its material existence was not confirmed until the excavations of Heinrich Schliemann in the late nineteenth century In the ensuing years as with the field of archaeology in general emphasis has shifted from revealing monuments and finding treasure to dealing with less glamorous more scientifically oriented investigations concerning aspects such as social and political organization economic functions and settlement patterns With its more than 2000 entries this reference work serves as both an introduction to and a summary of the study of ancient Mycenaean civilization Considerably expanded from the first edition there are 500 new entries representing materials published since 1991 The largest part of the book is made up of annotated bibliography entries arranged topically with introductory material for each section The book also includes a general introduction to Mycenaean civilization a glossary and author place and subject indexes *The Poetics of Myth* Eleazar M. Meletinsky,2014-01-21 First Published in 1998 Routledge is an imprint of Taylor Francis an informa company
