### Activity 1

1. What did Aristotle (and his other contemporaries) believe about the Earth's shape? Why?

Many people believe that Earth is a flat-disk and anyone who went too close to the edge would likely fall. That time exploration is an adventure to unknown mysteries.

2. What were the first scientific theories about the creation of the universe and the Earth?

According to Pierre Laplace (1749-1827) planets were formed by the rapid swirling of a massive gas-cloud which shrank and became dense due to gravitational forces also known as the "Nebular Hypothesis". James Janes (1877-1946) believed that planets were formed when another star passes close to the sun. The gravitational force of this passing star pulled off pieces from our sun which separated and cooled to form planets or the "Tidal Theory".

3. Explain the "Big Bang Theory". Why is this theory more acceptable to modern scientists?

The most accepted theory of creation of the universe at present is the widely known as the "Big Bang Theory" according to this theory the universe was formed after a huge explosion which took place 15 to 20 billion years ago. This explosion scattered far and wide the basic ingredients or atoms (electron, neutrons and protons) after many geological phenomenon eventually created the sky, land and seas.

### Activity 2

1. How did the Pre-Cambrian Period last? What developments took place during this period?

The Pre-Cambrian period started four billion years ago up to 570 million years ago. And during this period appeared first life forms, simple organisms like "protozoa" composed of a single cell and cannot be seen with the naked eye and other only multi-cellular life forms. These were followed by the first plants, blue and green moss which appeared whenever water was to be found.

2. What are the periods of Paleozoic Era?

The Paleozoic Era is divided into six periods namely the Cambrian, Ordovician, Silurian, Devonian, Carboniferous, and Permian.

3. How long the Mesozoic Era last? Into what periods this era divided?

The Mesozoic Era lasted from 225 mya to 65 mya also known as age of dinosaurs. This era is divided into three periods: the Triassic, Jurassic, and Cretaceous.
