Southern Europe and the Financial Earthquake Susannah Verney, Anna Bosco, Marina Costa Lobo, 2016-04-14 Following the outbreak of the international financial crisis Southern Europe became an epicentre of economic instability and international concern The prospect of a sovereign debt default in the eurozone's flaky fringe sent shock waves through the European and global economies Examining the crucial initial phase when the financial crisis was just beginning to spill over into the real economy the volume surveys the impact of the September 2008 Lehman Brothers collapse across the EU's southern periphery The six South European eurozone members Italy Greece Spain Portugal Cyprus and Malta are viewed in comparative perspective with EU candidate state and non eurozone member Turkey In an era before the spectacular EU IMF bailouts the picture that emerges is one of national differentiation illuminating these countries different starting points and varying policy responses in the face of the gathering financial storm This book was published as a special issue of *South European Society and Politics* Less Pretension, More Ambition Peter van Lieshout, Robert Went, Monique Kremer, 2010 Ontwikkelingshulp heeft onder de Nederlandse bevolking nog altijd een groot draagvlak zo blijkt uit opinieonderzoek Maar de twijfels nemen toe Ook in de media worden steeds meer vraagtekens geplaatst bij de effecten van hulp Met name de situatie in Afrika stelt velen teleur Waarom geven we eigenlijk ontwikkelingshulp en helpt die hulp Wat weten we over ontwikkelingstrajecten van landen en over de mogelijkheid daar van buiten aan bij te dragen Hoe relevant is hulp nog voor

ontwikkelingslanden nu andere financiële stromen zoals remittances en buitenlandse investeringen FDI door globalisering zijn toegenomen En heeft beleid gericht op thema's als klimaat migratie financiële stabiliteit kennis handel en veiligheid niet meer invloed op de ontwikkelingskansen van arme landen Deze en andere vragen komen aan bod in dit rapport van de Wetenschappelijke Raad voor het Regeringsbeleid Op basis van bijna vijfhonderd gesprekken in het veld en een uitgebreide bestudering van de literatuur formuleert de WRR aanbevelingen voor forse wijzigingen in de organisatie van ontwikkelingshulp en voor gestructureerde aandacht voor terreinen die ontwikkelingsrelevant zijn en voor mondiale publieke goederen

Latin American Economic Development Javier A. Reyes, W. Charles Sawyer, 2011-03-25 Latin America is one of the most interesting parts of the world The region's illustrious history culture and geography are famous internationally but in terms of economics Latin America has been generally associated with problems For many the combination of a resource rich region and poor economic conditions has been a puzzle Latin American Economic Development provides the most up to date exploration of how this happened with a focus on why the continent can be considered to have underperformed how the various Latin American economies function and the future prospects for the region This textbook addresses the economic problems of Latin America theme by theme The first four centuries of Latin American economic development are explained with reference to historical and institutional factors the role of commodities import substitution industrialization and the resultant slow growth of the region The development of Latin America during the twentieth century is examined through the policies of governments toward international trade and the management of the exchange rate A result of these policies was the accumulation of significant debt in the region that resulted in substantial economic instability The final section of the book explains how all of these themes have contributed to two dominant problems for the region poverty and inequality The purpose of this book is to provide a comprehensive text for increasingly popular undergraduate economics courses on Latin America However the book has been carefully designed for

Economic Development and Entrepreneurship in Transition Economies Jovo Ateljević,Jelena Trivić,2016-04-05 This book contributes to a better understanding of entrepreneurship in transition economies Current literature reflects the more traditional schools of thought on entrepreneurship which are influenced by the Western perspective and fail to fully address the scenario in transition economies There is a broad consensus among academics policy makers and practitioners that a fundamental cause of difficulties experienced by most economies in transition has been the fact that reform has not been accompanied by the creation of new private businesses and particularly SMEs This is especially evident in states created in Europe after the dissolution of the Soviet Union where many barriers which were inherited from the old system remain in place thus inhibiting entrepreneurial progress in these countries despite a favorable political and economic environment The contributions featured in this book focus on how much progress has been achieved so far with regard to these aspects as well as identify which current barriers and issues still need to be resolved Themes include innovation performance financing venture capital educational factors and entrepreneurial learning The Quiet Power of Indicators Sally Engle Merry,Kevin

E.
