**Violence in Transition** Dustin N. Sharp,2013-09-14 This book examines the role of economic violence violations of economic and social rights corruption and plunder of natural resources within the transitional justice agenda Because economic violence often leads to conflict is perpetrated during conflict and continues afterwards as a legacy of conflict a greater focus on economic and social rights issues in the transitional justice context is critical One might add that insofar as transitional justice is increasingly seen as an instrument of peacebuilding rather than a simple political transition focus on economic violence as the crucial root cause is key to preventing re lapse into conflict Recent increasing attention to economic issues by academics and truth commissions suggest this may be slowly changing and that economic and social rights may represent the next frontier of transitional justice concerns There remain difficult questions that have yet to be worked out at the level of theory policy and practice Further scholarship in this regard is both timely and necessary This volume therefore presents an opportunity to fill an important gap The project will bring together new papers by recognized and emerging scholars and policy experts in the field **The Mirage of Dignity on the Highways of Human 'Progress'** Lukman

Harees,2012-01-16 The Modern Man is hypocritically boasting of unprecedented material progress in a world where inter alia millions daily go to bed hungry die or get killed through unwanted wars and preventable causes live in inhumane conditions vulnerable being exploited with ever widening inequality and might still ruling over right in international relations even in the post UDHR era an indictment on the collective conscience of mankind Besides the flame of materialism has been devouring time tested moral values causing chaos within the basic unit in society the family and relegating Man and his dignity to the level of animals and even manipulating his identity Therefore questions arise Is Moral law fading are political economic systems and institutions like UN failing in realizing the lofty goal of affording due dignity basic rights and social justice humanity deserves Can the bystanders be mere onlookers anymore This book seeks to dispassionately survey the yawning gap between the rhetoric and the ground reality in bringing about dignity and social justice for humanity from bystanders perspective in the light of these questions and underlines the imperative need for moral progress to go hand in hand to make Man assume his due role as the trustee on earth It also exhorts bystanders to close ranks as human dignity champions rights defenders identity protectors against onslaughts from power hungry politicians mighty powers and vested interests This is the need of the times and what our future progeny demands **International Investment Law and**

**Globalization** Jean-Michel Marcoux,2018-09-03 In a context of neoliberal globalization have the processes of elaboration

and implementation of foreign investors responsibilities by intergovernmental organizations reached the realm of legality Using an analytical framework and a methodology that combines international law with international relations this book provides a twofold answer to this question First it demonstrates that the normative integration of foreign investors responsibilities in international investment law is fragmented and consistent with the interests of the most powerful actors Second while using the interactional theory of international law to assess the normative character of several international instruments elaborated and implemented by intergovernmental organizations it highlights the sense of obligation that each instrument generates The analysis demonstrates that such a codification process is marked by relations of power and has resulted in several social norms with relatively few legal norms

*The Performance of Africa's International Courts* James Thuo Gathii, 2020-11-26 The performance of international courts has traditionally been judged against criteria of compliance and effectiveness Whilst these are clearly desirable objectives for litigants before Africa's international courts this book shows that we must look beyond these criteria to fully appreciate the impact of these courts This book shows how litigants use their participation in international litigation to achieve other objectives to amplify political disputes with their governments to build their movement to educate the public about their cause and to challenge the status quo Chapters in this collection show how these courts act as coordination points for opposition political parties to name and shame dominant parties for violation of their organizational rights Others demonstrate how Africa's international courts serve as transitional justice mechanisms in which truth telling about ongoing conflict and authoritarian governance receives significant attention This attention serves as a platform to galvanize resistance against continued authoritarian rule especially from outside the conflict countries Ultimately the book shows that these courts must be judged against new and broader criteria and understood as increasingly important venues for waging political social environmental and legal struggles
