curious and inquisitive Television viewers were catered for with a diverse selection of arts programmes documentaries and educational programmes as well as entertainment Television brought world cinema contemporary drama literature discussions and music education into homes Current social issues were discussed in educational programmes as well as in drama and situation comedy Through international programme cooperation imported programmes and films television broadened the world view of Finns and increased understanding of foreign languages cultures and geography Television programmes also dealt with controversial issues of history and brought out perspectives on the recent past that were not addressed in the history curriculum The Era of Cultural Television is based on extensive archival research The work analyses both programmes their press reception and documents from television administration and production The book is intended not only for readers interested in the history of television but also for readers more broadly interested in Finnish culture and contemporary history The book helps to understand how television has been a part of social planning cultural policy and democratic development and how television s cultural programming supported the transition from agrarian Finland to postmodern urban Finland The Era of Cultural Television is not a nostalgic look at the past Rather it invites us to think about what television means today when the cultural programming of television has spread across different platforms addressing small taste groups rather than a diverse national public
